

Understanding NWEA Scores

Dear Families,

I understand that, while very useful in helping your student to succeed, NWEA MAP Reports can sometimes be very tricky to interpret. I hope that these examples will help you to better understand your student's scores so that you can assist your student in achieving their very best!

The Student Progress Report is designed to show you where your child is performing compared to students in the same grade level as them, both at the district, and National level. The blue bar is where they scored. The orange bar represents the scores of their grade level peers in our district. The yellow bar is the average score of their grade level peers across the country. You will also see how they performed in semesters prior, so that you can compare how the gap is growing or shrinking and get a good picture of how they are lining up to grade level expectations!

The Student Goal Setting Worksheet is another valuable tool. This report is specific to your student's scores and personal growth. The first bar is what they scored in the beginning of the current school year. The horizontal dotted line is their goal score based on students at the same achievement level. This is helpful for all students. If your child is lower compared to their peers, it allows them a realistic goal and chance for success. If your child is a higher performer, it forces them to continue to push themselves and not "settle" with their original scores. These personal goals are a great motivator for your kiddos!

I hope that these descriptions allow you to understand your child's NWEA scores even more thoroughly. As always, please feel free to contact me with any questions or concerns! Together, we can make great things happen for your student!
