How to get started with Project 2013

The first thing you'll see when you open Project 2013 is a sharp new look. But don't stop there. Look a little closer to see how much has improved from Project 2007. Instead of dropping you in a blank file, Project 2013 takes you to a one-stop center for starting your project. Click **File > New**, then get your project going.

The screenshot shows the 'New' screen in Project 2013. It features a sidebar on the left with a list of project types. The main area displays a grid of project templates, each with a thumbnail image and a brief description. The templates include various project types such as 'New Project', 'New Project with Template', 'New Project with Existing Tasks', and 'New Project with Existing Resources'.

Four steps to project management

If you're new to project management, Project 2013 can give you a great running start with the built-in Project guide. To begin, click **File > New > Get Started**.

The screenshot shows the 'Welcome to Project' screen. It features a large green button that says 'Get your project started in 4 simple steps'. Below the button, there is a progress bar with four steps: '1. Create a new project', '2. Add tasks', '3. Assign resources', and '4. Set the project start date'. The progress bar shows that the first step is completed.

With this four-step guide, you'll learn how to schedule tasks, create a timeline, assign resources, and more. It's all there, right where you need it. Click the 'Get Started' button to begin.
