reaching governmental power the Founders intended to promote the rule of laws not men and to protect the prerogatives of citizens over and above their rulers No faction was to become so powerful that the rights and interests of any other groups or individuals could be easily trampled Specifically the Framers of our constitutional structure prohibited the government from suppressing speech inhibiting the right of free association of people conducting unreasonable preventing peaceful assemblies searches and seizures or acting without observing the dictates of due process and fair play After September 11 there is a risk that the philosophical protections of the Constitution could appear more than a trifle academic Indeed our traditional notions of fair play will be sorely tested in the context of our compelling requirements for effective self defense against brutal evil killers who hate the very idea of America Now that we witness the grave physical dangers that confront our families friends neighbors and businesses our commitment to limited government and robust individual liberties will of course inevitably and understandably be challenged

*Data Security Breaches* Rita Tehan,2008 Personal data security breaches are being reported with increasing regularity Within the past few years numerous examples of data such as Social Security bank account credit card and driver's license numbers as well as medical and student records have been compromised A major reason for the increased awareness of these security breaches is a California law that requires notice of security breaches to the affected individuals This law implemented in July 2003 was the first of its kind in the nation State data security breach notification laws require companies and other entities that have lost data to notify affected consumers As of January 2007 35 states have enacted legislation requiring companies or state agencies to disclose security breaches involving personal information Congress is considering legislation to address personal data security breaches following a series of high profile data security breaches at major financial services firms data brokers including ChoicePoint and LexisNexis and universities In the past three years multiple measures have been introduced but to date none have been enacted
