Performing Mountains Jonathan Pitches, 2020-04-02 Launching the landmark *Performing Landscapes* series *Performing Mountains* brings together for the first time Mountain Studies and Performance Studies in order to examine an international selection of dramatic responses to mountain landscapes Moving between different registers of writing the book offers a critical assessment of how the cultural turn in landscape studies interacts with the practices of environmental theatre and performance Conceived in three main parts it begins by unpicking the layers of disciplinary complexity in both fields before surveying the rich history and practice of rituals playtexts and site specific works inspired by mountains The last section

moves to a unique analysis of mountains themselves using key concepts from performance training scenography acting and spectatorship Threaded throughout is a very personal tale of mountain research offering a handrail or alternative guide through the book *Earth Science' 97 Ed. , The Cenozoic Era* Britannica Educational Publishing,2010-04-01 Its constant evolution over the millennia since its inception has made the Earth a dynamic entity subject to numerous climactic and environmental forces that are forever changing this planet In its most recent stage the planet has seen an incredible diversification in plant and animal life with the most prominent development of the Cenozoic era being the emergence of mammals This book examines our most immediate ancestors and the geologic geographic and environmental factors that helped make their primacy inevitable Fundamentals Of Arid Zone Ecology Dr. Manoj Kumar Sharma,2023-02-22 Fundamentals of Arid Zone Ecology include a wide range of landforms soils animal and plant life water balances and human activities It is impossible to pin down exactly what conditions qualify as arid because of this variation Nevertheless aridity itself is the common thread that ties together the world s driest places The degree of aridity is often quantified as a function of average annual precipitation and average annual temperature A region is deemed to be dry when there is a significant dearth of water resources to the point that plant and animal growth and development are hampered or prevented Arid regions are sometimes described as xeric or desertic because of their absence of flora Foundations of Arid Zone Ecology including geography physiography and Rajasthan s climate are some of the primary themes covered in this book Another is how to comprehend how deserts arise and are distributed The book also discusses how wastelands are distributed and how plants and animals may adapt to dry environments both of which are important in this topic Also we discuss the ecological effects of the Indira Gandhi Canal in this book **Geochronology, Dating, and Precambrian Time** John P. Rafferty Associate Editor, Earth Sciences,2010-08-15 Examines the mysteries of the Precambrian period by considering available geologic evidence while exploring the geochronology from early recognition of sequential layering in rocks to mass spectrometry *Catalog of Copyright Entries.
