The Ethics of Business in a Global Economy P.M. Minus, 2013-03-14 Paul M Minus Overview The papers gathered in this volume were first presented for reflection and discussion at a landmark event in March 1992 The International Conference on the Ethics of Business in a Global Economy held in Columbus Ohio brought together over 300 participants from twenty two nations in six continents This was the most geographically diverse body of leaders ever assembled to consider issues of ethics in business Approximately two thirds of them were business executives the others came mainly from the fields of education and religion Knowing the context from which this book emerged will help readers understand its composition and content As can be quickly seen the fourteen authors who have contributed to it come from different areas of the world and from different fields of endeavor One finds first essays on the book's central theme by business leaders from four nations Next there are analyses of three key topics by scholars active in the fields of economics and ethics Then come statements by practitioners of four major world religions on the relevance of their respective traditions to the ethics of business Finally there are six brief case studies prepared by two business ethicists about specific ethical issues arising in international business The authors address different facets of one of the most dramatic new facts of our time the globalization of business With many corporations now operating around the world and others planning a significant expansion of markets this development is destined to accelerate in coming decades

Rethinking Capitalism Rogene Buchholz, 2013-02-01 Given the recent financial meltdown and continuing economic problems the country and the world are facing Rethinking Capitalism is particularly relevant With the government having bailed out banks and other financial institutions as well as automobile companies and anger over the compensation and severance packages provided to the managers of failed institutions in light of growing inequalities and continued high unemployment in American society many are wondering if self interest driven free market capitalism is still viable While there is some support for more active government regulation of financial and other institutions there is also significant opposition to such an approach as new political movements gain strength Are there other alternatives to create a more responsible capitalism that serves the entire society Rethinking Capitalism questions the individualistic assumptions of a capitalist society and offers a new way to understand capitalism that entails a new role for business based on community and responsibility Using classical American Pragmatism as a philosophical framework for capitalism Professor Buchholz analyzes the history of capitalistic thought and proposes that we recast management as a profession akin to law and medicine oriented toward serving the public rather than just maximization of shareholder wealth Buchholz challenges the way we understand capitalism with its emphasis on the creation of economic wealth and growth to the exclusion of other important goals and champions a new approach to the creation of a more sustainable and responsible functioning of the capitalistic system the corporate organization and its management
