Moody's Manual of Investments, American and Foreign, 1925 **Moody's Manual of Investments: American and Foreign** John Sherman Porter, 1916 *Private Security and Identity Politics* Jutta Joachim, Andrea Schneiker, 2018-07-18 This book examines the self representation and identity politics of Private Military and Security Companies (PMSCs). PMSCs have become increasingly important over the past few decades. While their boom is frequently explained in functional terms such as their cost efficiency and effectiveness this book offers an alternative explanation based on an analysis of the online self presentations of forty two US and UK based companies. PMSCs are shaping how they are perceived and establishing themselves as acceptable and legitimate security actors by eclectically appropriating identities more commonly associated with the military businesses and humanitarian actors. Depending on their audience and clients needs they can be professional hero warriors or promise turn key security solutions based on their exceptional expertise or in a similar way to humanitarians reassure those in need of relief and try to make the world a better place. Rather than being merely public relations the self referential assertions of PMSCs are political. Not only do they contribute to a normalization of private security and reinforce an already ongoing blurring of lines between the public and

private sectors they also change what we deem to be security and a security actor This book will be of much interest to students of private military companies critical security studies military studies security studies and IR *The Governance of Private Security* Marco Boggero, 2018-02-15 This book offers new insights and original empirical research on private military and security companies PMSCs including China's negotiation approach to governance an account of Nigeria's first engagement with regulatory cooperation under the threat of Boko Haram and a study of PMSCs in Ebola hit Western Africa The author engages with concepts and theories from IR Political Economy and African studies like regime forum shopping and extraversion to describe what shapes state choices in national and international fora The volume clarifies and spells out the needed questions and definitions and proposes a synthesis of how regime formation is shaped by ideas interests and institutions starting from the proposition that regulatory cooperation consists in facilitating the acceptance and use of a single identifier for private military and security companies **Olympics Security** Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-10-25 Additional written evidence is contained in Vol 3 available on the Committee website at www.parliament.uk/homeaffairscom *The Secure and the Dispossessed* Nick Buxton, Ben Hayes, 2015-11-20 While the world's scientists and many of its inhabitants despair at the impact of climate change corporate and military leaders see nothing but opportunities For them melting ice caps mean newly accessible fossil fuels borders to be secured from climate refugees social conflicts to be managed and more failed states in which to intervene They are securing their assets at the expense of the planet and its inhabitants *The Secure and the Dispossessed* looks at these deadly approaches with a critical eye It also considers the flip side that the legitimacy of the elite is under unprecedented pressure from resistance by communities to resource grabs to those creating new ecological and socially just models for managing our energy food and water Topics covered include geoengineering militarism refugee protection greenwashing and the agricultural crisis among others Adaptation and resilience to a climate changed world is desperately needed but the form it will take will affect all of our futures Moody's Manual of Investments, American and Foreign, 1952 **Rules governing enforced removals from the UK** Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-01-26 The inquiry launched following the death of Jimmy Mubenga on a deportation flight from the UK found that although there were some positive aspects of the process which is carried out on the UK Border Agency's behalf by a private security contractor initially G4S and since 1 May 2011 Reliance Security the Committee found evidence of inappropriate use of physical restraint and the possible use of unauthorised and potentially dangerous restraint techniques weaknesses in passing on information about detainees medical conditions to all the relevant staff Use of racist language by contractors Use of excessive numbers of contractor staff The Committee recommends that the UK Border Agency should strengthen its procedures so that its own staff feel that they are entitled and expected to challenge any poor conduct on the part of contractors The Committee also rejects the practice of taking detainees to the airport as reserves in case another detainee is taken off a removal flight at the

last minute To strengthen safeguards against the ill treatment of prisoners the Committee recommends that members of the Independent Monitoring Boards for immigration removal centres or a similar independent monitoring network be given access to chartered removal flights

Global Unions, Local Power Jamie K. McCallum, 2013-10-17 News about labor unions is usually pessimistic focusing on declining membership and failed campaigns But there are encouraging signs that the labor movement is evolving its strategies to benefit workers in rapidly changing global economic conditions Global Unions Local Power tells the story of the most successful and aggressive campaign ever waged by workers across national borders It begins in the United States in 2007 as SEIU struggled to organize private security guards at G4S a global security services company that is the second largest employer in the world Failing in its bid SEIU changed course and sought allies in other countries in which G4S operated Its efforts resulted in wage gains benefits increases new union formations and an end to management reprisals in many countries throughout the Global South though close attention is focused on developments in South Africa and India In this book Jamie K McCallum looks beyond these achievements to probe the meaning of some of the less visible aspects of the

campaign Based on more than two years of fieldwork in nine countries and historical research into labor movement trends since the late 1960s McCallum s findings reveal several paradoxes Although global unionism is typically concerned with creating parity and universal standards across borders local context can both undermine and empower the intentions of global actors creating varied and uneven results At the same time despite being generally regarded as weaker than their European counterparts U S unions are in the process of remaking the global labor movement in their own image McCallum suggests that changes in political economy have encouraged unions to develop new ways to organize workers He calls these governance struggles strategies that seek not to win worker rights but to make new rules of engagement with capital in order to establish a different terrain on which to organize **Mergent International Manual** ,2009
