It is an original book comprising 51 simple variants systems 38 pivoted variants systems and 33 combined variants systems for which the number of played numbers has values between 9 and 67 inclusive. Each system has its main characteristics the winnings index and the unfolding on variants. All the playing systems selected in the present book are originally and naturally optimized because the main parameters of the component combinatorial structures have optimal values. The other 32 playing systems are at the highest level of current performance. More all the playing systems are highly balanced. Experience in recent years has confirmed the value of the naturally optimized systems included in the book through the numerous and substantial wins obtained by their help in many countries.
