Gulf Of Guinea:

Oil Policy in the Gulf of Guinea Rudolf Traub-Merz, Douglas Andrew Yates, 2004 *Maritime Security Cooperation in the Gulf of Guinea* Ali Kamal-Deen, 2015-08-07 In *Maritime Security Cooperation in the Gulf of Guinea* Kamal Deen Ali provides ground breaking analyses of the maritime security situation in this area **Maritime Security Cooperation in the Gulf of Guinea** Kamal-Deen Ali, 2015-07-28 In *Maritime Security Cooperation in the Gulf of Guinea* Prospects and Challenges Kamal Deen Ali provides ground breaking analyses of the maritime security situation in the Gulf of Guinea and its implications for shipping energy security sustainable fisheries as well as national and regional security The book juxtaposes the growing strategic importance of the Gulf of Guinea against the rising insecurity in the maritime domain especially from piracy Ali points out key gaps in prevailing regional and international approaches to maritime security cooperation in the Gulf of Guinea and sets out several suggestions for combating piracy as well as other maritime security threats while effectively enhancing maritime security cooperation in the region **NOAA Technical Report NMFS. ,1984 Oil and Politics in the Gulf of Guinea** Ricardo Soares de Oliveira, 2007 This book investigates the paradox at the heart of present day Gulf of Guinea politics The governance crisis festering throughout every one of the region s states ought to discourage outsiders from capital intensive long term commercial involvement and cast doubts over the political survival of ruling cliques However the presence of large petroleum deposits radically changes this equation the negative dynamics of state failure and wide spread violence affect the general population but spare the oil nexus The material and political resources made available by oil allow states to survive regardless of bad policies facilitate their governing elites material success regardless of reckless management earn international allies regardless of erratic domestic conduct and make companies want to invest regardless of risk The recent oil boom only strengthens this paradoxical viability Making possible what is arguably the largest inflow of resources into Africa in history it is of a different order from the short term viability afforded by the exploitation of other natural resources Nonetheless the partnership between insiders and outsiders that permits the extraction of oil is not conducive to positive long term outcomes in institution building or broad based economic growth Highly dependent on uninterrupted money flows and beset by various destabilising trends the political economy of oil in the Gulf of Guinea is poised in a state of permanent crisis **The Exploration of the Gulf of Guinea. Part I.** John Young Buchanan, 1888

Oil and Terrorism in the New Gulf James J.F. Forest, Matthew V. Sousa, 2006-03-07 *Oil and Terrorism in the New Gulf* examines the national security implications of U S energy security policies in the Middle East and the emerging U S involvement in oil exploration and extraction in West Africa Similar political social and economic challenges _poverty corruption lack of infrastructure and weak governments_ are seen in the oil producing states of both the Middle East and Africa Drawing comparisons between these two regions allows Forest and Sousa to formulate policy recommendations for how to handle foreign policy toward Africa in the future based on lessons learned from past interaction with the Middle East

Oil and Terrorism in the New Gulf promises to inform a lively debate over the future of U S foreign policies toward Africa and is a valuable resource for policymakers and the academic community that should be approached in a coherent integrated fashion to ensure the success of the United States energy and national security agendas **Nigeria's Security Interest in the Gulf of Guinea** Timothy Ellah,2011-12 THE Gulf of Guinea is an enclave of growing economic social political and geostrategic importance It is also an enclave of overwhelming poverty disease chronic instability and prone to terrorist incursion The establishment of a new combatant force AFRICOM for the region GULF OF GUINEA and Africa in general by the United States of America marks an important milestone in the evolution of relations between the U S and the government of the Gulf region Through AFRICOM the United States Department of Defense will consolidate the efforts of other existing Commands and headquarters as it seek a more stable environment for political and economic growth in the Gulf of Guinea In line with such goals AFRICOM would be pioneering a bold method of military engagement focused on war prevention interagency cooperation and development rather than on traditional war fighting It is in such view that this study is carried out to assess Nigeria's security interest in the Gulf of Guinea owing to her supposed leadership position in the region

Threatened and Recently Extinct Vertebrates of the World Matthew Richardson,2023-03-09 Habitat loss and degradation are currently the main anthropogenic causes of species extinctions The root cause is human overpopulation This unique volume provides for the very first time a comprehensive overview of all threatened and recently extinct mammals birds reptiles amphibians and fishes within the context of their locations and habitats The approach takes a systematic examination of each biogeographic realm and region of the world both terrestrial and marine but with a particular emphasis on geographic features such as mountains islands and coral reefs It reveals patterns useful in biodiversity conservation helps to put it all into perspective and ultimately serves as both a baseline from which to compare subsequent developments as well as a standardization of the way threatened species are studied **The Exploration of the Gulf of Guinea** John Young Buchanan,1888
