**Givenness and Revelation** Jean-Luc Marion, 2016-03-24 Givenness and Revelation represents both the unity and the deep continuity of Jean Luc Marions thinking over many decades This investigation into the origins and evolution of the concept of revelation arises from an initial reappraisal of the tension between natural theology and the revealed knowledge of God or sacra doctrina Marion draws on the re definition of the notions of possibility and impossibility the critique of the reification of the subject and the unpredictability of the event in its relationship to the phenomenology of the gift This work begins and ends in the concept of revelation thus addressing the very heart and soul of Marion s theology concluding with a phenomenological approach to the Trinity that rests in the Spirit as gift Givenness and Revelation enhances not only our understanding of religious experience but enlarges the horizon of possibility of phenomenology itself *Of Stigmatology* Peter Szendy, 2018-01-09 What if our existence is a product of its interruptions What if the words that structure our lives are themselves governed by the periods and commas that bring them to a close or our images by the cinematic cuts that mark them off Are we like Chekhov s clerk who dreams of being pursued by angry exclamation marks or Scorsese s Jake LaMotta bloodied by one violently edited fight after another the products of punctuation or as Peter Szendy asks us to think of it punctuation *Of Stigmatology* elaborates for the first time a general theory of punctuation Beginning with punctuation marks in the common sense Peter Szendy goes on to trace the effects of punctuation more broadly arguing that looking and hearing are not passive acts of reception but themselves punctuate the images and sounds they take in Szendy reads an astonishing range of texts and traditions from medical auscultation to literature Chekhov Sterne Kafka philosophy Hegel Nietzsche Heidegger Derrida psychoanalysis Lacan and film *Raging Bull The Trial Fight Club Repeatedly* what Szendy finds in these works is a punctuation that marks experience itself that seeks and ultimately fails to bind the subject to itself This is the stigmatology of the punctuation mark on the page that structures texts from ancient to digital as well as the punctuation of experience as though at the hands of a boxer *Nag Hammadi Codices, Volume 1 Introduction* A S George, Department of Antiquities of the Arab Republic of Egypt, United Nations Educational Scientific & Cultural Organization, 1984-12 The collection of thirteen codices found in upper Egypt near Nag Hammadi in 1946 is one of the major archaeological discoveries of our time Perhaps the library of a Gnostic community in late antiquity the codices are a repository of important spiritual materials from throughout the ancient world Hence a thorough analysis of this new material is indispensable for any proper understanding of the history of religions in this period The rich documentation which the codices add to early Coptic text material promises to raise to a new precision the historical analysis of that language This edition presents collotype reproductions in natural size of all folios of the thirteen codices as well as reproductions of the covers and photographs previously taken of fragments that are now lost *Showing Off!* Jorella Andrews, 2014-07-31 Drawing on art media and phenomenological sources *Showing Off A Philosophy of Image* challenges much recent thought by proposing a fundamentally

positive relationship between visibility and the ethical In philosophy cultural studies and art relationships between visibility and the ethical are usually theorized in negative terms according to the dyadic logics of seeing on the one hand and being seen on the other Here agency and power are assumed to operate either on the side of those who see or on the side of those who control the means by which people and things enter into visibility To be seen by contrast when it occurs outside of those parameters of control is to be at a disadvantage hence for instance contemporary theorist Peggy Phelan s rejection of the idea central to activist practices of the 1970 s and 80 s that projects of political emancipation must be intertwined with and are dependent on processes of making oneself visible Acknowledgment of the vulnerability of visibility also underlies the realities of life lived within increasingly pervasive systems of imposed and self imposed surveillance and apparently confident public performances of visual self display Showing Off A Philosophy of Image is written against the backdrop of these phenomena positions and concerns but asks what happens to our debates about visibility when a third term that of self showing is brought into play Indeed it proposes a fundamentally positive relationship between visibility and the ethical one primarily rooted not in acts of open and non oppressive seeing or spectating as might be expected but rather in our capacity to inhabit both the risks and the possibilities of our own visible being In other words this book maintains that the proper site of generosity and agency within any visual encounter is located not on the side of sight but on that of self showing or showing off

*Bibliography of H.G. Wells* Fred A. Chappell,1924      Expression and Interpretation in Language Susan

Petrilli,2011-12-31 This book features the full scope of Susan Petrilli s important work on signs language communication and of meaning interpretation and understanding Although readers are likely familiar with otherness interpretation identity embodiment ecological crisis and ethical responsibility for the biosphere Petrilli forges new paths where other theorists have not tread This work of remarkable depth takes up intensely debated topics exhibiting in their treatment of them what Petrilli admires creativity and imagination Petrilli presents a careful integration of divergent thinkers and diverse perspectives While she abandons hope of attaining a final synthesis or an unqualifiedly comprehensive outlook there remains a drive for coherence and detailed integration The theory of identity being advocated in this book will provide the reader with an aid to appreciating the identity of the theorizing undertaken by Petrilli in her confrontation with an array of topics Her theory differentiates itself from other offerings and at the same time is envisioned as a process of self differentiation Petrilli s contribution is at once historical and theoretical It is historical in its recovery of major figures of language it is theoretical in its articulation of a comprehensive framework She expertly combines analytic precision and moral passion theoretical imagination and political commitment

**Self-Identity and Powerlessness** Alice Koubová,2013-05-30 In Self Identity and Powerlessness Alice Koubov proposes a conception of human existence that does not essentially depend on the definition of self identity The author shows that the philosophical stress on human identity fails to grasp essential aspects of human existence By emphasizing the moments of Dasein s powerlessness in Heidegger s fundamental ontology she develops in her analysis of various philosophers literary examples and social psychology an original phenomenology of alternation of existence and affair How necessary is identity for thinking Are we capable of philosophical thought even when we have neither ourselves nor the world under our full control Is it possible to relax become powerless and yet think precisely These questions are to be answered in this book

Early Twentieth-Century Continental Philosophy Leonard Lawlor,2012 Early Twentieth Century Continental Philosophy elaborates the basic project of contemporary continental philosophy which culminates in a movement toward the outside Leonard Lawlor interprets key texts by major figures in the continental tradition including Bergson Foucault Freud Heidegger Husserl and Merleau Ponty to develop the broad sweep of the aims of continental philosophy Lawlor discusses major theoretical trends in the work of these philosophers immanence difference multiplicity and the overcoming of metaphysics His conception of continental philosophy as a unified project enables Lawlor to think beyond its European origins and envision a global sphere of philosophical inquiry that will revitalize the field

 emerging and seasoned scholars from a range of cultures bring fresh perspectives to bear on the age old practice of  
 translation The current movement of people knowledge and goods around the world has made intercultural communication  
 both prevalent and indispensable Consequently the translator has become a more prominent figure and translation an  
 increasingly present theme in works of literature Embedding translation in a fictional setting and considering its most  
 extreme forms pseudotranslation or self translation for example are fruitful ways of conceptualizing the act of translating and  
 extending the boundaries of translation studies Taken together the various translational fictions examined in this collection  
 yield new insights into questions of displacement migration and hybridity all characteristic of the modern world The Fictions  
 of Translation will thus be of interest to practising translators students and scholars of translation and literary studies as well  
 as a more general readership The Facsimile Edition of the Nag Hammadi Codices James M. Robinson, 1984 The collection  
 of thirteen codices found in upper Egypt near Nag Hammadi in 1946 is one of the major archaeological discoveries of our  
 time Apparently the library of a Gnostic community in late antiquity the codices are a repository of important spiritual  
 materials from throughout the ancient world Hence a thorough analysis of this new material is indispensable for any proper  
 understanding of the history of religions in this period The rich documentation which the codices add to early Coptic text  
 material promises to raise to a new precision the historical analysis of that language This edition presents collotype  
 reproductions in natural size of all folios of the thirteen codices as well as reproductions of the covers and photographs  
 previously taken of fragments that are now lost **The Moral Domain** Thomas E. Wren, Wolfgang Edelstein, Gertrud  
 Nunner-Winkler, 1990 These 13 essays by noted American and German scholars provide a focused discussion of many of the  
 issues raised by the integration of philosophical and psychological theories of moral development The essays pivot around  
 two key contributions by Lawrence Kohlberg and his associates and by Jürgen Habermas Kohlberg's major work was a  
 description of the stages of development of moral understanding in children This book contains the final formulation of his  
 view of the end point of moral development Stage 6 Habermas's insightful response to that formulation which seeks to fit  
 Kohlberg's perceptions into the framework of a communicative ethics is an important extension of his own moral theory In  
 three parts the essays map out the relationship between philosophy and psychology in the study of the moral domain explore  
 the way the moral point of view is understood within Kohlberg's cognitive developmental model and discuss the place of  
 moral development in terms of various models of personality and decision making The contributors are Augusto Blasi Dwight
