Inbetriebnahme abzubilden Für die Umsetzung werden die UI Technologien SwiftUI Jetpack Compose NET MAUI und Flutter betrachtet , **Testing iOS Apps with HadoopUnit** Scott Tilley, Krissada Dechokul, 2022-05-31 Smartphone users have come to expect high quality apps This has increased the importance of software testing in mobile software development Unfortunately testing apps particularly the GUI can be very time consuming Exercising every user interface element and verifying transitions between different views of the app under test quickly becomes problematic For example execution of iOS GUI test suites using Apple's UI Automation framework can take an hour or more if the app's interface is complicated The longer it takes to run a test the less frequently the test can be run which in turn reduces software quality This book describes how to accelerate the testing process for iOS apps using HadoopUnit a distributed test execution environment that leverages the parallelism inherent in the Hadoop platform HadoopUnit was previously used to run unit and system tests in the cloud It has been modified to perform GUI testing of iOS apps on a small scale cluster a modest computing infrastructure available to almost every developer Experimental results have shown that distributed test execution with HadoopUnit can significantly outperform the test execution on a single machine even if the size of the cluster used for the execution is as small as two nodes This means that the approach described in this book could be adopted without a huge investment in IT resources HadoopUnit is a cost effective solution for reducing lengthy test execution times of system level GUI testing of iOS apps **Big Book of Blog Niches** Dennis DeLaurier, 2024-03-24 About If you are an old or new Blogger you may be looking for ideas for your next Blog If you are a new Blogger there is always that Brain Freeze that comes with starting Below are a BIG BUNCH of some ideas that may help I hope all the ideas below are helpful Dennis DeLaurier Author **Sharing CIM Solutions** Jørgen K.
