

# Introduction to Physical Education

## INTRODUCTION

The basis of Physical Education is difficult and very broad. With changing time, its meaning also kept changing. The following definitions clear its meaning to a great extent:

- According to **H.C. Buck**, *Physical Education is the part of general education programme which is considered with growth, development and education of children through the medium of big muscle activities. It is the education of whole child by means of physical activities. Physical activities are tools and are so selected and conducted as to influence every child's life physically, mentally, emotionally and morally.*
- According to **C.L. Brownell**, *Physical Education is the accumulation of whole some experience through participation in large muscle activities that promote optimum growth and development.*
- According to **J.B. Nash**, *Physical Education is that phase of the whole field of education that deals with big muscle activities and their related responses.*
- According to **Cassidy**, *Physical education is the sum of changes in the individual caused by experience which can bring in motor activity.*

## ■ Post-Independence Development of Physical Education

After 15 August 1947, the development of physical education moved in a new direction. Many organisations were set up for the development of physical education as per the following details:

1. **The Central Advisory Board of Physical Education and Recreation:** This was set up in March, 1950 under the presidentship of Dr. Tara Chand along with 10 other members. Its first meeting was held on 19 March 1950. In 1958, a meeting of the principals of all the colleges of the country was held in Madras (now Chennai), during which emphasis was put on imparting physical education.
2. **All India Council of Sports:** The central government prepared a policy to boost games and sports in India. In 1954, the Union Minister Maulana Abul Kalam Azad called a meeting of the heads of different sports associations. Retired Admiral General K.M. Kariappa was appointed as its first president.
3. **Netaji Shubhash National Institute of Sports:** In 1958, a committee was set up, headed by the Maharaja of Patiala to make an inquiry about India's poor performance and downward slide in the Olympic games. The Government of India established Netaji Shubhas National Institute of Sports in March, 1961. It was inaugurated by Dr. Seemali.

communities play an important role in agriculture the environment and medicine Vast fungal diversity has been found in  
plant systems The fungi associated with any plant system are in the form of epiphytic endophytic and rhizospheric fungi  
These associated fungi play important roles in plant growth crop yield and soil health The rhizospheric fungi present in  
rhizospheric zones have a sufficient amount of nutrients released by plant root systems in the form of root exudates for

growth development and activities of microbes Endophytic fungi enter in host plants mainly through wounds that naturally occur as a result of plant growth or develop through root hairs and at epidermal junctions The phyllospheric fungi may survive or proliferate on leaves depending on the extent of influences of material in leaf diffuseness or exudates The diverse group of fungal communities is a key component of soil plant systems where they are engaged in an intense network of interactions in the rhizospheric endophytic and phyllospheric areas and they have emerged as an important and promising tool for sustainable agriculture These fungal communities help to promote plant growth directly or indirectly by mechanisms for plant growth promoting PGP attributes These PGP fungi can be used as biofertilizers bioinoculants and biocontrol agents in place of chemical fertilizers and pesticides in an environmentally and eco friendly manner This book covers the current knowledge of plant associated fungi and their potential biotechnological applications in agriculture and allied sectors This book should be useful to scientists researchers and students of microbiology biotechnology agriculture molecular biology environmental biology and related subjects
