discipline there is currently a battle for the soul of Management and Organizational History MOH at the centre of which is a widespread concern that much recent work has been more about how one should or might do history rather than actually doing historical work If ever there was a time for a new volume on MOH this is certainly it The Palgrave Companion to Oxford Economics Robert A. Cord,2021-06-16 The University of Oxford has been and continues to be one of the most important global centres for economics With six chapters on themes in Oxford economics and 24 chapters on the lives and work of Oxford economists this volume shows how economics became established at the University how it produced some of the world s best known economists including Francis Ysidro Edgeworth Roy Harrod and David Hendry and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with the first in depth analysis of Oxford economics

Law and Economics Riaz Tejani,2023-06-28 This book examines the contemporary significance of the Law and Economics movement Drawing on anthropology sociology political economy and ethics the book traces the influence of lawyer economists in developing and operationalizing key ideas for instance human capital and structural adjustment that have come to be grouped under the heading of neoliberalism It then examines how these ideas are tied to global environmental harm and to wealth inequality Largely because of such ties sociolegal studies tend to dismiss economic thought This book however forges a path between economic and sociolegal approaches Discussing thinkers such as Foucault and Polanyi Calabresi and Sunstein it demonstrates both the possibilities and limitations inherent in economic approaches to law Bringing together disparate and sometimes conflicting literatures the book thereby eschews disciplinary taboos in the name of a creative sympathetic and critical rereading of the key ideas of Law and Economics This book will be of interest to students and researchers in sociolegal studies anthropology sociology and economics

Economics of Sustainable Energy Jaan S. Islam,M. R. Islam,Meltem Islam,M. A. H. Mughal,2018-09-14 Co written by a pioneer of the sustainability movement this groundbreaking volume offers a new way of thinking about the economics of sustainable energy a goal that has eluded scientists and economists for decades Every year as soon as reports on global economic inequality remind us about the direction our civilization is heading there is a hysterical reaction but hysteria dies down within weeks and we go back to the lifestyle that brought us here today Often the blame is laid on the Millennial generation for their apathy lust for comfort and bratty attitude Yet business insider surveys indicate it s the same Millennial generation that overwhelmingly cares for the state of the world and the direction in which our civilization is heading Nearly 50% of them ranked climate change and destruction of nature as their primary concern This is followed by concern for war and global conflict and then global economic inequality The vast majority of those surveyed are willing and eager to make lifestyle changes This book breaks open the hypocrisy of our civilization and stops the blame game in its tracks and identifies the root causes of today s world economy ecology and global politics The book demonstrates that changes in

lifestyle are necessary but not sufficient No economic policy or technology development mode has a chance to survive let alone thrive unless supported by the political establishment In this process the government plays a pivotal role The challenge is to change the attitude of the government from a self serving controlling mode to a representative philanthropic mode This new system of economic development and political governance is inspired by a long forgotten understanding of political economics medieval Islamic economics In reviewing the history of economics from trade currencies and interest the strengths and weaknesses of various economic developments over our centuries are evaluated Based on the historical analysis a step by step procedure is outlined for this fundamental change in our society today As a whole this book is the first in the modern era to offer such a comprehensive analysis complete with solutions to the entire crisis of today s civilization
