However, it can also be irritating to the skin and mucous membranes if used in high concentrations.	Permethrin is a synthetic insecticide that is effective against fleas. It works by paralyzing the fleas and eventually killing them. It is also effective against ticks and mosquitoes. However, it can be toxic to fish and other aquatic animals if used in a fish tank.	Sea Tree Oil is a natural oil that is derived from the Sea Tree plant. It is known for its strong, pungent odor, which is effective in repelling fleas. It is also a natural disinfectant and can help to kill bacteria and fungi.
