

PART – A
Language Proficiency
(Expected Answering Time: 20 Minutes)

Direction: (Question No. 1-5)

Read the Passage given below and answer the questions that follow:

In matters of social responsibilities of Science, I will speak of things which are relatively easy for young people, but difficult for older persons to understand. This is because young people possess a quality that, in general, diminishes with years; the quality of imagination. Imagination is an integral part of science and naturally endowed to young people. For the last three centuries, the findings of science have had marked impact upon society, but people on the whole have not understood just how the world has been affected.

From the time of Newton, people began to realize that through technology, which is based upon the findings of science, substantial comforts and profits could be gained and from the time of Pasteur, people also started realising that through the application of Science to medicine, they might be able to live longer as many fatal diseases could be controlled and health facilities would increase. As years went by, technological materialism was developed; demands for new technological knowledge became greater and greater; more and more people became scientists and technologists. In the valour of its ignorance, humanity accepted science and technology as its benefactor, seldom questioning, seldom asking where it was heading.

1. Why is the quality of imagination possessed more by young people?
(1) Older people have a rigid attitude.
(2) Young people are more intelligent.
(3) It is a quality that decreases with years.
(4) The older generation is conservative by nature.
2. What should be the title for the Passage?
(1) Old Vs young Generation
(2) Social role of Science
(3) Impact of Science
(4) Application of Science and Technology
3. Which of the following best explains the expression "technological materialism"?
(1) Technology and materialism are closely interlinked.
(2) Technology has played major role for material prosperity.
(3) All material comforts are due to science and technology.
(4) Advancement of technology has made mankind more materialistic.
4. Which of the following is not mentioned in the Passage?
(1) People have not realised how the world is affected by science.
(2) The use of modern gadgets has increased in modern times.
(3) More and more people have become scientists and technologists.
(4) Technology offers both comforts and profits to mankind.
5. Which correctly explains the word "Substantial" used in the passage?
(1) Consistent
(2) Considerable
(3) Concurrent
(4) Cumulative
