

Mission Statement:

We are firmly committed to provide our Point of Sale customers with the highest quality software available. We also pride ourselves on leading the industry in innovation, by constantly integrating the latest technologies to improve our product. Lastly, we strive to bring this to our customers at a price that can't be matched in value.

Great features at your fingertips

Multi-Column Modifiers

Reduce ordering time with our fast, simple, and customizable multi-column modifiers. Every option for an item can be found in one modifier window. No need to click from screen to screen or search for buttons on different menus!

Labor Scheduling

The advanced Labor Scheduling feature allows management to schedule staff for multiple jobs by pay period. You can schedule an employee's shift, enter their vacations, and record days off. Graphical colored bars show when employees are not available for shifts. Schedules can be printed in the office and posted by job code, making it very easy to see everyone's shifts. Employees can also print their own schedule from any POS terminal to the local receipt printer. Hours and gross pay are accumulated so management can forecast what the labor cost will be for that scheduled period.

You need it customized?

Start with a blank sheet of paper, then draw out how you want your screens designed. Future POS is that flexible! Notice each screen layout pictured here is different, because the order entry screen is totally flexible and configurable to your needs. Your menu screen can be programmed to generate the most efficient layout for your type of business, as well as reduce server training time. Screens can be created for different staff (bartenders, servers, managers), while buttons can be created in various sizes, colors, fonts, with logos, graphics bitmaps or plain text.

Future POS software fits any restaurant application from fine dining, casual, pizza delivery, quick service, pool hall, cafeteria, and more. We strongly urge you to compare our ability to customize menus with the competition.
