illustrate the less accessible forms These have for the most part been copied from scientific works like the publications of the U S Fish Commission Brehm s Thierleben etc but a few have been drawn for the occasion Figs 1 and 58 with several others being from the pen of Mr E E Thompson About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
