Government Foresighted Leading Yunxian Chen, Jianwei Qiu, 2016-12-08 Over the past several decades of reform and opening up to the outside world remarkable economic growth has been achieved in China and has drawn considerable world attention The question of how to explain that phenomenon and the road China has taken towards its modernization have been the focus of attention from worldwide economists and experts This book attempts to

explore China's economy from the perspective of government foresighted leading which gives full play to government functions particularly those of regional governments On the one hand government foresighted leading enables government to exercise foresighted leading by means of foundations mechanisms and regulations of market economy On the other hand it could reduce government malfunction and minimize the cost of remedying defects Government foresighted leading theory is an important innovation and contribution to the theoretical configuration of economics It not only offers an explanation of China's continuous economic growth but further classifies economics into microeconomics macroeconomics and mezzoeconomics which includes regional economics industrial economics or structural economics supplementing the traditional microeconomics and macroeconomics system *China Shakes the World* James Kynge, 2007 Drawing on his years in the country and his fluency in Mandarin Kynge probes beyond the familiar statistics to unearth the surprising reasons for China's explosive growth Official Gazette of the United States Patent and Trademark Office, 2003 Global Production Networking and Technological Change in East Asia Shahid Yusuf, M. Anjum Altaf, Kaoru Nabeshima, 2004-07-01 In the coming decades East Asian economies must face the challenges of an increasingly globalized marketplace This book explores the changing parameters of competition in East Asia and argues that success ultimately will depend on the ability of the region's firms to harness the potential of global production networks and to build their own innovative capability Presenting the latest findings on global production networks and the evolution of technological capabilities it provides researchers students and policymakers with in depth information and analysis on key issues related to growth and development in East Asia East Asian firms must not only achieve greater efficiency but also become more innovative offering differentiated products in order to vie with other first tier suppliers of multinational corporations These firms will also need to develop a technological edge if they are to compete with corporations from the leading OECD countries and form their own global production networks Global Production Networking and Technological Change in East Asia argues that a development strategy linked to technological advance will be necessary to foster the growth of innovative national firms that can remain competitive in global markets Asian Sources Gifts & Home Products, 2004 **Port-City Interplays in China** James Jixian Wang, 2016-04-08 China has progressed dramatically since 1978 when the country started its economic reforms and opened up to the world economy It took only three decades for China to develop from a closed centrally planned economy with little sea borne trade into the world's second largest economy with the largest container shipment volume in the world The major coastal cities have been gateways linking China with the world and have experienced rapid urbanization and port growth How has such port growth been speeded up and realized under strong state control and intervention How have ports and their cities affected each other What lessons can China's port cities learn from other countries regions and cities What will be the next stage of port city interplays in China in this globalizing era Answering these questions from a geographical perspective James Wang looks into four sets of port city relations in China Economic and functional relations

between port and city port city spatial relations external network relations of cities through ports and port city governance These relations formulate a conceptual framework which is used to interpret port city interplays in individual ports and cities but also in multi port regions such as the Pearl River Delta Based on the author s own research and investigations into more than 25 port cities in China over the past 18 years this book provides vivid stories about China and challenge existing theories on port development

Microregionalism and Governance in East Asia Dr. Katsuhiko Sasuga, Katsuhiko Sasuga, 2004-10-28 This book provides an analysis of the processes of micro regionalization in East Asia within the broader context of globalization and regionalization The author examines the specifics of corporation production and investment networks that link parts of Japan Taiwan and China with a detailed case study focusing on the electronics industry Making a significant contribution to the research on regionalism and multi level governance in East Asia this book will appeal to those interested in international political economy and Asian studies
