Gambro Prismaflex Training Manual:

ACCCN's Critical Care Nursing - E-Book Leanne Aitken, Andrea Marshall, Wendy Chaboyer, 2015-10-01 With each edition ACCCN's Critical Care Nursing has built on its highly respected reputation. Its contributors aim to encourage and challenge practising critical care nurses and students to develop world class critical care nursing skills in order to ensure delivery of the highest quality care. Endorsed by the Australian College of Critical Care Nurses (ACCCN), this 3rd edition presents the expertise of foremost critical care leaders and features the most recent evidence based research and up to date advances in clinical practice technology procedures and standards. Expanded to reflect the universal core elements of critical care nursing practice, authors Aitken, Marshall and Chaboyer have retained the specific information that captures the unique elements of contemporary critical care nursing in Australia, New Zealand and other similar practice environments. Structured in three sections, ACCCN's Critical Care Nursing 3e addresses all aspects of critical care nursing including patient care and organisational issues while highlighting some of the unique and complex aspects of specialty critical care nursing practice such as paediatric considerations, trauma management and organ donation. Presented in three sections: Scope of Critical Care, Principles and Practice of Critical Care, Specialty Practice. Focus on concepts that underpin practice: essential, physical, psychological, social and cultural care. New case studies elaborate on relevant care issues. Practice tips highlight areas of care particularly relevant to daily clinical practice. Learning activities support knowledge, reflective learning and understanding. Additional case studies with answers available on Evolve. NEW chapter on Postanaesthesia recovery. Revised coverage of metabolic and nutritional considerations for the critically ill patient. Aligned with the NEW ACCCN Standards for Practice.

Critical Care Nephrology Claudio Ronco, Rinaldo Bellomo, John A. Kellum, 2009-01-01 This 2nd edition of Critical care nephrology continues to provide comprehensive coverage of the latest advances in critical care procedures for the adult or pediatric patient with renal diseases or disorders. It presents a common language and standardized guidelines to help multidisciplinary physicians caring for the critically ill communicate more effectively. **BOOK JACKET** *Pediatric Continuous Renal Replacement Therapy* Farahnak Assadi, Fatemeh Sharbaf, 2015-12-16 This book provides a current understanding of Continuous Renal Replacement Therapies (CRRT) techniques with a focus on drug dosing in critically ill children receiving CRRT. Strategies include the role of therapeutic drug monitoring, effect of CRRT on drug pharmacokinetics, variations in the drugs' properties, newer kidney injury biomarkers and simple and easy methods for estimating drug clearance. The conclusion of this book features case reports focused on the patient's symptoms and laboratory data as they present in clinical practice and the type of CRRT modality needed to provide quality safety and cost effectiveness of patient care. Pediatric Continuous Renal Replacement Therapy will expand the clinical knowledge and experience of practicing nephrologists and other professionals involved in the care of children suffering from Acute Kidney Injury (AKI) to improve and sustain their quality of life. **Introduction to Critical Care Nursing - E-Book** Mary Lou Sole, Deborah Goldenberg Klein, Marthe J.

Moseley,2016-08-08 NEW UPDATED content is included throughout especially in topics such as nutrition feeding tube connectors the new PAD guidelines for pain management Rapid Response Teams sepsis guidelines and valvular disorders and TAVR NEW Critical Reasoning Activities are interspersed throughout the text to better promote development of clinical nursing judgment NEW Universal Collaborative Care Plan for the Critically Ill Patient addresses important aspects of collaborative interprofessional care that apply to virtually all critically ill patients NEW Increased coverage of infection control addresses the QSEN safety competency and helps provide patient protection against the growing threat of drug resistant infections NEW Coverage of cardiac assistive devices includes ECMO and other small portable bedside cardiac assistive devices NEW Refocused hemodynamic monitoring content emphasizes the noninvasive methods of hemodynamic monitoring that are becoming more prominent NEW Increased coverage of palliative care supports the book s strong focus on end of life care Revised Organ Donation chapter is refocused to help nurses provide holistic care to families facing difficult end of life choices regarding organ donation rather than on the details of transplantation procedures NEW Patient Problems focus shifts the book s emphasis from nursing diagnoses to the interprofessional care of patient problems
