Border Crossings Yves Gambier, Luc van Doorslaer, 2016-09-14. For decades, Translation Studies has been perceived not merely as a discipline but rather as an interdiscipline, a transdisciplinary field operating across a number of boundaries. This has implied and still implies a considerable amount of interaction with other disciplines. There is often much more awareness of and attention to translation and Translation Studies than many translation scholars are aware of. This volume crosses the boundaries to other disciplines and explicitly sets up dialogic formats: every chapter is co-authored both by a specialist from Translation Studies and a scholar from another discipline with a special interest in translation. Sixteen disciplinary dialogues about and around translation are the result, sometimes with expected partners such as scholars from Computational Linguistics, History, and Comparative Literature, but sometimes also with less expected interlocutors such as scholars from Biosemiotics, Game Localization Research, and Gender Studies. The volume not only challenges the boundaries of Translation Studies but also raises issues such as the institutional division of disciplines, the cross-fertilization of a given field, the trends and turns within an interdiscipline.

Linguistic and Cultural Representation in Audiovisual Translation Irene Ranzato, Serenella Zanotti, 2018-03-19. This collection of essays offers a multi-faceted exploration of audiovisual translation both as a means of intercultural exchange and as a lens through which linguistic and cultural representations are negotiated and shaped. Examining case studies from a variety of media, including film, television, and video games, the volume focuses on different modes of audiovisual translation, including subtitling and dubbing, and the representations of linguistic and stylistic features, cultural mores, gender, and the translation process itself embedded within them. The book also meditates on issues regarding accessibility, a growing concern in audiovisual translation research. Rooted in the most up-to-date issues in both audiovisual translation and media culture today, this volume is essential reading for students and scholars in translation studies, film studies, television studies, video game studies, and media studies.
