 reading not only as an encounter with written language but as a lifelong habit of engagement with ideas We look at reading
 in four different ways as linguistic process personal experience collective experience and as classroom practice We think
 about how reading influences a life how it changes over time how we might return at different stages of life to the same
 reading how we might respond differently to ideas read in an L1 and L2 There are 44 teaching activities all founded on
 research that explores the nature value and impact of reading as an authentic activity rather than for language or study

 parts of the book offer a virtuous join between reading teaching and researching It will be useful for any teacher or reader
