Everything, All the Time, Everywhere Stuart Jeffries, 2022-09-27 A radical new history of a dangerous idea Post Modernity is the creative destruction that has shattered our present times into fragments It dynamited modernism which had dominated the western world for most of the 20th century Post modernism stood for everything modernism rejected fun exuberance irresponsibility But beneath its glitzy surface post modernism had a dirty secret it was the fig leaf for a rapacious

new kind of capitalism It was also the forcing ground of the post truth by means of which western values got turned upside down But where do these ideas come from and how have they impacted on the world In his brilliant history of a dangerous idea Stuart Jeffries tells a narrative that starts in the early 1970s and continue to today He tells this history through a riotous gallery that includes David Bowie the Ipod Frederic Jameson the demolition of Pruitt Igoe Madonna Post Fordism Jeff Koon s Rabbit Deleuze and Guattari the Nixon Shock The Bowery series Judith Butler Las Vegas Margaret Thatcher Grand Master Flash I Love Dick the RAND Corporation the Sex Pistols Princess Diana the Musee D Orsay Grand Theft Auto Perry Anderson Netflix 9 11 We are today scarcely capable of conceiving politics as a communal activity because we have become habituated to being consumers rather than citizens Politicians treat us as consumers to whom they must deliver Can we do anything else than suffer from buyer s remorse

iPod & iTunes J. D. Biersdorfer, 2006 When Apple introduced the iPod in 2001 CEO Steve Jobs declared listening to music will never be the same again He was right on the money The iPod grabbed attention right away and by the end of 2005 more than 41 million of them had sold iPod is the dominant digital music player on the market and for the first time Apple gets to feel like Microsoft iPod steadily evolved through five generations since then and today the dynasty ranges from a screenless 512 megabyte version that can hold plenty of songs for your gym routine to a 60 gigabyte multimedia jukebox that can spin out an entire season of Desperate Housewives along with thousands of color photos and all that colorful music An iPod is many things to many people but it can be much more than most people realize That s where iPod iTunes The Missing Manual comes in Like the device itself this book is a long running bestseller now in its fourth edition What makes it so popular is the wealth of useful information it brings to anyone who breaks open iPod s distinctive packaging especially since Apple doesn t supply a manual of its own Once again we ve updated this guide to fully explain the ins and outs of iPod including the nano the shuffle and all the latest features and uses such as The 5th generation Video iPod which can hold 15 000 songs 25 000 photos and 150 hours of video iTunes 6 where you can buy tunes subscribe to Podcasts tune into internet radio download videos build playlists and more Going beyond the music to use iPod as an external drive an eBook a personal organizer a GameBoy and a slide projector Extreme iPodding with shareware and AppleScripts using an iPod with external speakers including the car stereo accessories and troubleshooting It s been five years since iPod hit the scene but clearly the evolution has only just begun iPod iTunes The Missing Manual gives you everything you need to evolve with it
