industry professionals investors and academics Boris Bogdan and Ralph Villiger introduce the characteristics of drug and medical device development explain how to translate these into the valuation and provide valuable industry data Special emphasis is put on the practicability of the proposed methods by including many hands on examples without compromising on realistic results **Life Science Management** Avo Schönbohm,Hans Henning von Horsten,Philipp

Plugmann,2022-07-14 The COVID 19 pandemic has reminded us of how important the life science industry is and compels us to find efficient management methods specific to the industry Pharmaceuticals drug and vaccine development labs R D labs medical instrumentation and tech companies hygiene supply companies medical distribution chains all form an integral part of this industry At the interface of scientific research technology innovation and management and embedded in regulatory and legal frameworks life science management is still an under researched field of practice and science This edited volume addresses this research gap and offers a wide range of practical and theoretical contributions that provide insights into one of the most exciting industries The book is primarily directed at practitioners and decision makers in the life science industry Students and professionals of life science management at all levels as well as policy makers will find valuable insights and inspiration for their daily work and career development *Leadership in the Life Sciences* Brian D. Smith,2019-06-26 The healthcare professionals who save and extend our lives are helpless without the medicines and technologies that have revolutionised medical care But the industry that invents makes and provides these indispensable tools is transforming under the pressure of ageing populations globalisation and revolutions in biological and information technology How this industry adapts and evolves is vitally important to every one of us This book looks inside the heads and hearts of the people who lead the global pharmaceutical and medical technology industry It describes how they make sense of their markets and the wider life sciences economy It reveals what they have learned about how to lead large complex organisations to compete in dynamic global markets *Leadership in the Life Sciences* is essential reading for anyone working in or with the pharmaceutical and medical technology industry and its halo of supporting companies Written as ten succinct lessons it gives the reader unique insight into what the industry s leaders are thinking Covering topics from leadership to organisational culture from change management to digital disruption and from competitive strategy to value creation each chapter distills the accumulated wisdom of those who lead the complex and turbulent life sciences industry *NASA Authorizations* United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space,1990 *The Handbook of Marketing Strategy for Life Science Companies* Jean-Francois Denault,2018-06-13 The proposed book follows in the same steps as the first book in the series *The Handbook of Market Research for Life Sciences* While the first book focused on the techniques and methodologies to collect the market data you need to evaluate your market as well as presentation models for your data the second volume will focus more on the commercialization elements of marketing As such this book will be covering a wide range of topics directly tied to marketing management such as

marketing and commercialization strategies consumers behaviors marketing metrics pricing techniques and strategies as well as marketing communications public relations advertising and more The objective of this book is to focus exclusively on the marketing aspects for life sciences providing entrepreneurs with a toolkit of tools they can use throughout the marketing process from market planning to commercialization The overall objective is for them to gain an understanding on the marketing function ask the right question and be able to tackle simple to complex topics **Pharma's Prescription** Kamal Biswas,2013-10-21 The pharmaceutical industry needs a shot in the arm and not a moment too soon The executive suite is mired in a bygone era a time when extensive well funded pharmaceutical R D produced blockbuster drugs kept everything in house and reaped the financial rewards But that way of working needs to change Executives now need to know what the technologists in their companies are doing in order to survive the next decade Written for those new to industry as well as for experienced professionals or specialists looking to expand their knowledge this book is a must read for business executives and information technologists alike Pharma s Prescription bridges the knowledge gap between current business practices and the most valuable technologies today This book is filled with practical real life examples from industry and is a straightforward guide for all pharmaceutical and information technology executives who need to improve their businesses Focuses on practical solutions that are easily incorporated in your day to day work Integrates business operations and information technology Highlights the industry s top turn around stories Discusses pharmaceutical industry trends growth opportunities innovation drivers regulatory complexities and emerging market operations *BoogarLists | Directory of Bio-Life Sciences Venture Capital* , *Bioscience - Lost in Translation?* Richard Barker,2016-09-08 Medical innovation as it stands today is fundamentally unsustainable There is a widening gap between what biomedical research promises and the impact that it is currently achieving in terms of patient benefit and health system improvement This book highlights the global problem of the ineffective translation of bioscience innovation into health system improvements and its consequences analyses the underlying causative factors and provides powerful prescriptions for change to close the gap It contrasts the progress in biomedicine with other areas of scientific and technological endeavour such as information technology in which there are faster and more reliable returns for society The author s career has spanned pharmaceuticals diagnostics and health informatics and he draws lessons from a host of case examples in which bottlenecks have prevented progress such as in dementia and antibiotic resistant infections and from many in which these barriers have been overcome such as HIV therapy and targeted cancer treatment The new era of precision medicine holds the greatest promise of closing this innovation gap Along with techniques such as open innovation and adaptive development powerful new genomics and digital health tools are poised to transform the productivity of life sciences Bioscience Lost in Translation lays out a fresh and provocative strategy for advancing the innovation process shaping the right policy environment and building an ecosystem to deliver the 21st century cures that are urgently needed [Advances in Creativity, Innovation, Entrepreneurship and](#)

Communication of Design Evangelos Markopoulos, Ravindra S. Goonetilleke, Amic G. Ho, Yan Luximon, 2020-07-03 This book brings together experts from different areas to show how creativity drives design and innovation to allow the integration of a wider spectrum of topics related to engineering design industrial design and ergonomics in design It presents theories and best practices demonstrating how creativity generates technological invention and how this combined with entrepreneurship leads to business innovation It also discusses strategies to teach creativity and entrepreneurial competencies Moreover the book discusses the role of human factors in understanding communicating with and engaging users reporting on innovative approaches new typographies visual elements and technologies applied to mobile and computer interfaces developments It also discusses innovative strategies for design education and sustainable design Based on the AHFE 2020 Virtual Conference on Creativity Innovation and Entrepreneurship and on the AHFE 2020 Virtual Conference on Human Factors in Communication of Design held on July 16 20 2020 this book offers a fresh perspective and novel insights for human factors researchers designers communicators and innovators
