Mineral trioxide aggregate MTA was invented in the mid 1990s at Loma Linda University USA with the aim of introducing a material for use as a root end filler that would set and develop its properties in the presence of moisture MTA is a mixture of Portland cement and bismuth oxide which is added to enhance the radiopacity of the material These two components are mixed with water to produce hydrated cement This book concisely presents information on diverse aspects of MTA and its use with a view to making it more widely available to clinicians and researchers The topics covered include the development of MTA and its introduction into clinical dentistry its chemical composition and setting characteristics manipulation and placement material properties reactivity and the influence of environmental factors The clinical applications are clearly explained and related innovations and further materials currently available on the market are also discussed **Peterson's**

Annual Guides to Graduate Study Peterson's Guides, Inc, 1983 **Handbook of Evidence-Based Practices for Emotional and Behavioral Disorders** Hill M. Walker, Frank M. Gresham, 2015-12-15 This authoritative volume provides state of the art practices for supporting the approximately 20% of today's K 12 students who have emotional and behavioral disorders EBD that hinder school success Leading experts present evidence based approaches to screening progress monitoring intervention and instruction within a multi tiered framework Coverage encompasses everything from early intervention and prevention to applications for high risk adolescents Exemplary programs are described for broad populations of EBD students as well as those with particular disorders including autism spectrum disorders and externalizing behavior problems The book combines theory and research with practical information on how to select interventions and implement them with integrity **Developing ELF Programmes for Language Teaching** Tomokazu Ishikawa, Paul McBride, Ayako Suzuki, 2025-10-20 This book explores the possibilities of designing implementing and evaluating an English language teaching programme based on research in English as a lingua franca ELF Drawing on the editors and authors experiences in applying ELF research to pedagogy within a university setting the book challenges epistemological and

institutional structures that position discrete constructs of the English language as central in pedagogy **Hospitality and Tourism Education in China** Jigang Bao, Songshan (Sam) Huang, 2021-12-30 This book is the first to systematically introduce China's tourism education system and the various tourism education practices in China to the international audience and stakeholders. China has the world's largest tourism education system which consists of over 1,000 higher learning institutions with tourism-related programs and over half a million of tertiary level students studying in these programs. Despite the industry scale internationally little is known about this tourism education system and how it operates. Knowledge and better understanding of China's tourism education system are important as tourism becomes one of the critical forces transforming economy, society and environment. The book offers an historical evaluation of China tourism education development and elaborates on the current industry status and practices in different subject fields of China's tourism education including tourism management, hospitality management, events and festival management in higher education, tourism vocational education, tour guides training and certification, master of tourism administration, MTA education as a unique education model in China, PhD education in tourism, tourism curriculum research and international collaboration in tourism education in China. The book provides relevant knowledge to international tourism education providers, industry practitioners, human resource managers, government officials and tourism academics, researchers and students.
