Communication breakdown is just as common as communication effectiveness, but it doesn't have to be that way. Become a more effective communicator by finding out how messages can be sent and distorted by differing channels, including memos, emails, meetings, teleconferencing, and instant messaging. Expert communicator Baden Eunson shares insights about the informal organisation, networking, how to know when messages are being lost due to cultures of silence, silos, or empires, and what to do about it, and explains how knowledge management can help you get your message across.
