

- 33 Let  $h(t) = -16t^2 + 64t + 80$  represent the height of an object above the ground after  $t$  seconds. Determine the number of seconds it takes to achieve its maximum height. Justify your answer.

$$a = -16 \quad b = 64 \quad c = 80$$

$$t = \frac{-b}{2a}$$

$$t = \frac{-64}{2(-16)}$$

$$t = \frac{-64}{-32}$$

$$t = 2$$

It reaches its maximum height at 2 seconds.

State the time interval, in seconds, during which the height of the object *decreases*. Explain your reasoning.

t	h
0	80
1	128
2	144
3	128
4	80
5	0
6	-112

The height of the object decreases for  $2 < t < 5$ , because it reaches its maximum height at 2 seconds and decreases in height until it hits the ground at 5 seconds.

**Score 4:** The student has a complete and correct response.

*Social Justice, the Common Core, and Closing the Instructional Gap* Janet C. Richards, Kristien Zenkov, 2015-10-01 There is little doubt that the Common Core State Standards CCSS are a controversial entity They are provocative for the way in which they have been developed for the ways they are being implemented and evaluated for their content and for their failure to explicitly consider the needs interests and histories of diverse populations While the CCSS continue to be problematized by critics around the country including the editors of this volume it is evident our nation is moving toward some would argue we have arrived at a national set of standards and or a national curriculum This text will be an important volume for multiple audiences in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice oriented CCSS focused curricula that empower diverse learners and their teachers Social Justice the Common Core and Closing the Instructional Gap will consist of chapters by classroom teachers and university scholars who portray honest engaging first person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments They highlight their accomplishments that include

effectively supporting students to consider social injustices and devise plans to work toward a more equitable world
