- 1) **Thompson (the industry) has been very pro-market of providing feedback from the public. However, the industry has been very resistant to make the public more involved in the decision-making process. The original industry and public feedback is the only way you can get your industry to process their feedback correctly.**
- 2) **Thompson says that the industry is not aware of the public or the public is not aware of the industry. The industry is not aware of the public and the public is not aware of the industry.**
- 3) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**
- 4) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**
- 5) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**
- 6) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**
- 7) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**
- 8) **Make the public aware of the industry and the industry aware of the public. The industry is not aware of the public and the public is not aware of the industry.**

Revisiting the Results: Economics and Political Attitudes

[illegible]

Abstract: The purpose of this study was to determine the effect of a 12-week, low-intensity, low-impact, and low-volume exercise program on the physical fitness of sedentary, middle-aged women. The program was designed to be a safe and effective means of increasing physical activity in sedentary women. The program consisted of three sessions per week, each lasting 30 minutes. The sessions included a warm-up, a low-impact aerobic workout, and a low-intensity strength training routine. The results of the study showed that the program had a positive effect on the physical fitness of the women. There was a significant increase in heart rate, blood pressure, and body mass index (BMI) over the 12-week period. The program was well-tolerated by the women, and they reported a decrease in fatigue and an increase in energy levels. The findings of this study suggest that a low-intensity, low-impact, and low-volume exercise program can be an effective means of improving physical fitness in sedentary, middle-aged women.
