**Engineering the Human** Bert Jaap Koops, Christoph H. Lüthy, Annemiek Nelis, Carla Sieburgh, J.P.M. Jansen, Monika S. Schmid, 2013-02-12 The volume is collection of articles treating the topic of human improvement enhancement from a variety of perspectives philosophical literary medical genetic sociological legal etc The chapters in this volume treat not only those aspects that most immediately come to mind when one thinks of human enhancement such as genetic engineering cloning artificial implants and artificial intelligence etc Somewhat less obvious aspects include evolutionary perspectives in connection with the prolongation of the human lifespan plastic surgery since its beginnings and questions such as whether the distinction between natural and artificial can really be drawn at all and how it has been conceived across the ages or what the legal implications are of recent developments and techniques Many papers make links to the representation of these developments in popular culture from Jules Verne through Aldous Huxley to the movie Gattaca address the hopes and fears that come with them as well as the question how realistic these are While all chapters are written by scientists at the international top of their respective fields all are accessible to a non specialist audience and eminently readable We believe that they represent a state of the art overview of questions that are of interest to a large audience The book thus targets a non specialist audience with an interest in philosophical sociological scientific and legal issues involved in both traditional and recent matters concerning the desire of mankind to improve itself the human body the human mind and the human condition It is unique in that it brings together all these aspects within a coherent and cohesive collection

Cyberfeminism and Artificial Life Sarah Kember, 2003 Examining the construction manipulation and re definition of life in contemporary technoscientific culture this book aims to re focus concern on the ethics rather than on the nature of artificial life

*The Art of Ethics in the Information Society* Liisa Albertha Wilhelmina Janssens, 2025-10-01 New technologies are often implemented before their ethical consequences have been fully understood In this volume experts working in the sciences arts and philosophy of technology share novel perspectives on how we can best identify and navigate the new ethical crossroads emerging in our information society With an eye toward the future the contributors

present an essential and unique view on the interplay between ethics and modern technology      **Metagnosis** Danielle Spencer, 2020-10-27 Bridging memoir with key concepts in narratology philosophy and history of medicine and disability studies this book identifies and names the phenomenon of metagnosis the experience of learning in adulthood of a longstanding condition It can occur when the condition has remained undetected e g colorblindness and or when the diagnostic categories themselves have shifted e g ADHD More broadly it can occur with unexpected revelations bearing upon selfhood such as surprising genetic test results Though this phenomenon has received relatively scant attention learning of an unknown condition is often a significant and bewildering revelation one that subverts narrative expectations and customary categories How do we understand these revelations In addressing this topic Danielle Spencer approaches narrative medicine as a robust research methodology comprising interdisciplinarity narrative attentiveness and the creation of writerly texts Beginning with Spencer s own experience the book explores the issues raised by metagnosis from communicability to narrative intelligibility to different ways of seeing Next it traces the distinctive metagnostic narrative arc through the stages of recognition subversion and renegotiation discussing this trajectory in light of a range of metagnostic experiences from Blade Runner to real world mid life diagnoses Finally it situates metagnosis in relation to genetic revelations and the broader discourses concerning identity Spencer proposes that better understanding metagnosis will not simply aid those directly affected but will serve as a bellwether for how we will all navigate advancing biomedical and genomic knowledge and how we may fruitfully interrogate the very notion of identity      **Postdramatic Tragedies** Emma K. Cole, 2020 Ancient tragedy has played a well documented role in contemporary theatre since the mid twentieth century In addition to the often commented upon watershed productions however is a significant but overlooked history involving classical tragedy in experimental and avant garde theatre Postdramatic Tragedies focuses upon such experimental reinventions and analyses receptions of Greek and Roman tragedy that come under the banner of postdramatic theatre a style of performance in which the traditional components of drama such as character and narrative are subordinate to the immediate affective power of more abstract elements such as image and sound The chapters are arranged into three parts each of which explores classical reception within a specific strand of postdramatic theatre text based theatre devised theatre and theatre that transcends the usual boundaries of time and space such as durational and immersive theatre Each offers a semiotic and phenomenological analysis of a particular case study covering both widely known and less studied productions from 1995 to 2015 Together they reveal that postdramatic theatre is related to the classics at its conceptual core and that the study of postdramatic tragedies reveals a great deal about both the evolution of theatre in recent decades and the status of ancient drama in modernity      Christianity & Bioethics Mark Wesley Foreman, 1999 It s difficult to see a family member suffer yet is it right to take actions to relieve that suffering which might hasten their death Is human cloning something we should allow to happen Should doctors be allowed to assist patients who choose to die rather than continue to live in pain or

with a disease As medical technology improves the challenges to your ethical and religious convictions will certainly increase Sooner or later you will find yourself making medical choices that have faith implications This book will help you begin the process of determining what you believe God would want you to do in the face of these challenging situations This is a must read book The Wiley Blackwell Companion to Wisdom Literature Samuel L.
