**Dwelling in Mobile Times** Sybille Frank, Lars Meier, 2019-05-16 In an era of increasing mobilities places of residence are still vital Unlike commuting migrating or travelling dwelling usually evokes at least in modern Western thought the idea of an immobile private place to rest This book explores the places spaces and practices of dwelling in mobile times and considers dwelling under the umbrella of broader transformations in society The manifestations of these transformations are carved out on the level of everyday practices and experiences Bringing together eight case studies from Europe the USA and Asia on subjects such as gentrification homelessness and displaced persons multi local and diasporic lifeworlds professional elites and tourism the book explores various and complex entanglements of mobilities and dwelling in detail In doing so the contributors critically analyse who may be or has to be mobile under which circumstances at present This book thus demonstrates that mobility is more than movement between localities and that to dwell is more than to be at a locality Instead mobilities and dwelling are both shaped and challenged by strong but shifting power relations and are thus deeply contested This book was originally published as a special issue of *Cultural Studies* *Twenty Years of Education Transformation in Gauteng 1994 to 2014* Maringe, Felix, Prew, Martin, 2015-05-05 *Twenty Years of Education Transformation in Gauteng 1994 to 2014* An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years **Russians in Iran** Rudi Matthee, Elena Andreeva, 2018-01-25 *Russians in Iran* seeks to challenge the traditional narrative regarding Russian involvement in Iran and to show that whilst Russia's historical involvement in Iran is longstanding it is nonetheless much misunderstood Russia's influence in Iran between 1800 and the middle of the twentieth century is not simply a story of inexorable intrusion and domination rather it is a complex and interactive process of mostly indirect control and constructive engagement Drawing on fresh archival material the contributors provide a window into the power and influence wielded in Iran not just by the Russian government through its traditional representatives but by Russian nationals operating in Iran in a variety of capacities including individuals bankers and entrepreneurs *Russians in Iran* reveals the multifaceted role that Russians have played in Iranian history and provides an

original and important contribution to the history and international relations of Iran Russia and the Middle East
