Introduction to Physical Geography of the eBook Understanding Physical Geography This eBook was written for students
taking introductory Physical Geography taught at a college or university For the chapters currently available on Google Play
presentation slides Powerpoint and Keynote format and multiple choice test banks are available for Professors using my
eBook in the classroom Please contact me via email at Michael Pidwirny ubc ca if you would like to have access to these
resources The various chapters of the Google Play version of Understanding Physical Geography are FREE for individual use
in a non classroom environment This has been done to support life long learning However the content of Understanding
Physical Geography is NOT FREE for use in college and university courses in countries that have a per capita GDP over 25
000 US dollars per year where more than three chapters are being used in the teaching of a course More specifically for
university and college instructors using this work in such wealthier countries in a credit based course where a tuition fee is
accessed students should be instructed to purchase the paid version of this content on Google Play which is organized as one
of six Parts organized chapters One exception to this request is a situation where a student is experiencing financial hardship
In this case the student should use the individual chapters which are available from Google Play for free The cost of these
Parts works out to only 0 99 per chapter in USA dollars a very small fee for my work When the entire textbook 30 chapters is
finished its cost will be only 29 70 in USA dollars This is far less expensive than similar textbooks from major academic
publishing companies whose eBook are around 50 00 to 90 00 Further revenue generated from the sale of this academic
textbook will provide the carrot to entice me to continue working hard creating new and updated content Thanks in advance
to instructors and students who abide by these conditions IMPORTANT This Google Play version is best viewed with a
