prism through which to understand the Global North's destructive relationship with the natural world. Drawing on a broad spectrum of archives extending back to the late 18th century paintings, fashion plates, prints, photographs, and films, this study traces the intricate ways a patriarchal imperialism and a global capitalism have paired black women with the realm of nature to justify the exploitation both of people and of ecosystems. These dehumanizing and speciesist strategies of subjugation have perpetuated interlocking patterns of social injustice and environmental depletion that constitute the most salient challenges facing humankind today. Through a novel approach that merges visual studies, critical race theory, and animal studies, this interdisciplinary investigation historicizes the evolution of the boundaries between human and non-human animals during the modern period. The book will be of interest to scholars working in art history, visual studies, critical race theory, colonial and post-colonial studies, animal studies, and French studies.

Radical Religious Thought in Black Popular Music. Five Percenters and Bobo Shanti in Rap and Reggae Martin A. M. Gansinger, 2017-12. This book is discussing patterns of radical religious thought in popular forms of Black music. The consistent influence of the Five Percent Nation on Rap music as one of the most esoteric groups among the manifold Black Muslim movements has already gained scholarly attention. However, it shares more than a strong pattern of reversed racism with the Bobo Shanti Order, the most rigid branch of the Rastafarian faith globally popularized by Dancehall Reggae artists like Sizzla or Capleton. Authentic devotion or calculated marketing? Apart from providing a possible answer to this question, the historical shift of Bobo adherents from shunned extremists to firmly anchored personifications of authenticity in mainstream Rastafarian culture is being emphasized. A multi-layered comparative case study attempts to shed light on the re-contextualization of language as well as expressed dogmatic perceptions and symbolism, attitude towards other religious groups, and aspects of ethnic discrimination. Further analysis includes the visibility of artists and their references to practical and moral issues directly derived from two obscure ideologies that managed to conquer airwaves and concert halls.

Black Women's Experiences of Criminal Justice Ruth Chigwada-Bailey, 2003. A personal discourse on the multiple disadvantages of people who are black women and from the margins of society.

Black Poor and White Philanthropists Stephen J. Braidwood, 1994-01-01. This book examines the events surrounding the establishment of a settlement in West Africa in 1787, which was later to become Freetown, the present-day capital of Sierra Leone. It outlines the range of ideas and attitudes to Africa which underlay the foundation of the settlement and the part played by the black settlers themselves. London's Black Poor: Was the settlement based on a racist deportation designed to keep Britain white as

some accounts claim or a voluntary emigration in which the blacks themselves played a part
