Jeremy Kost Fractured:

Isolated But Not Alone ,2018-12-14 Jeremy Kost is a photographer celebrated for his tireless chronicling of gender and sexuality Isolated But Not Alone is his first monograph dedicated to images of men since 2014 While Jeremy has attracted an audience of close to half a million followers to his Instagram account in that time exhibitions and books are the only way to view his uncensored art work in it s full glory In Isolated But Not Alone over 200 Polaroids from nearly a decade of Kost s archive are swathed in vivid oil paint The resulting work stands in contrast to the overly saturated high contrast photography we see in today s digital realm Two dimensional snapshots become textured and alive Contrast is distilled The paint acts as a high contrast punch against the muted and dreamlike tone of the original Polaroid The work is in part a result of a fascination and experiment with color theory reflected in the tone light and contrast of the paint in relation to the images It also calls to mind the artistic debate of figure and ground the landscape is almost an equal partner in Kost s work Rather than disguise or obscure paint brings both the figure and landscape of the original image into sharper relief while repeating the conversation of figure ground again with paint to Polaroid Whether staring back at the camera or captured at a distance the men in Kost s work exude a true sense of intimacy They offer a canvas for our own projections and fantasies The paint fractures the image almost puncturing a reverie reminding us of the vulnerability of that moment and inviting us in while also keeping us at a distance In addition the book contains a new poem by actor poet Nico Tortorella and a conversation with Drew Sawyer photo curator at the Brooklyn Museum Isolated But Not Alone is an essential collectible for fans of Kost s work and an illuminating introduction to his work for new audiences

[The Camera Does the Rest](#) Peter Buse,2016-05-27 In a world where nearly everyone has a cellphone camera capable of zapping countless instant photos it can be a challenge to remember just how special and transformative Polaroid photography was in its day And yet there s still something magical for those of us who recall waiting for a Polaroid picture to develop Writing in the context of two Polaroid Corporation bankruptcies not to mention the obsolescence of its film Peter Buse argues that Polaroid was and is distinguished by its process by the fact that as the New York Times put it in 1947 the camera does the rest Polaroid was often dismissed as a toy but Buse takes it seriously showing how it encouraged photographic play as well as new forms of artistic practice Drawing on unprecedented access to the archives of the Polaroid Corporation Buse reveals Polaroid as photography at its most intimate where the photographer photograph and subject sit in close proximity in both time and space making Polaroid not only the perfect party camera but also the tool for frankly salacious pictures taking Along the way Buse tells the story of the Polaroid Corporation and its ultimately doomed hard copy wager against the rising tide of digital imaging technology He explores the continuities and the differences between Polaroid and digital reflecting on what Polaroid can tell us about how we snap photos today Richly illustrated The Camera Does the Rest will delight historians art critics analog fanatics photographers and all those who miss the thrill of waiting to see what develops

Jeremy Kost, Glenn O'Brien, 2014 Jeremy Kost's born 1977 last monograph *It's Always Darkest before Dawn* established him as a master of the Polaroid. His body of work is at once image performative act and genre bending fusion of subject environment and artistic technique. Born of one of the fortuitous mistakes in the artist's studio that leads to incredible breakthroughs a camera malfunction Kost's latest series consists of multiple exposure Polaroids of young stereotypically beautiful men a subject and technique that Kost has been investigating for nearly a decade. These mesmerizing layered Polaroid images are collected in *Fractured* along with contextualizing and descriptive text from Franklin Sirmans LACMA Curator of Contemporary Art. Made throughout 2013 only a fraction of the work has been seen outside of the studio before the publication of this book. Presenting dreamlike fractured narratives collapsed into a single Polaroid frame each image takes the viewer to an intimate place filled with broken dreams and unrequited desire while celebrating man's beauty and identity. Whether cropped to show luminous details or simply floated on the page each photograph represents a tangible beautiful moment layered in mystery.

Conversion to Modernism Francis M. Naumann, Man Ray, 2003 Man Ray 1890 1976 has long been considered one of the most versatile and innovative artists of the twentieth century. As a painter writer sculptor photographer and filmmaker he is best known for his intimate association with the French Surrealist group in Paris during the 1920s and 1930s particularly for his highly inventive and unconventional photographic images. These remarkable accomplishments however have tended to overshadow the importance of his earlier work significant not only for comprehending Man Ray's future artistic development but also for fleshing out our understanding of the visual arts in America during one of the most important and crucial phases of the evolution of modernism. The book and the exhibition for which this work will serve as the catalog concentrate on Man Ray's production from 1907 to 1917. *Conversion to Modernism* will be the first comprehensive fully illustrated work to examine this artist's seminal years. The show and the catalog begin with Man Ray's high school years in Brooklyn his studies at the Art Students League and the American Academy in New York and the time he spent in life drawing classes at the more progressive Ferrer Center. From 1913 to 1915 Man Ray lived in a small artists colony in Grantwood New Jersey. It was here studying with Samuel Halpert a former student of Matisse that Man Ray began to become the artist we know today. The last section of the show and of the book include recently discovered photographs and other works that are influenced by a knowledge of the emergent Dada movement. Here is Man Ray in recognizable form just before he leaves the country for
