Jim Collins Built To Last:

Built to Last Jim Collins, Jerry I. Porras, 2002-08-20 Drawing upon a six year research project at the Stanford University Graduate School of Business James C Collins and Jerry I Porras took eighteen truly exceptional and long lasting companies and studied each in direct comparison to one of its top competitors They examined the companies from their very beginnings to the present day as start ups as midsize companies and as large corporations Throughout the authors asked What makes the truly exceptional companies different from the comparison companies and what were the common practices these enduringly great companies followed throughout their history Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels *Built to Last* provides a master blueprint for building organizations that will prosper long into the 21st century and beyond *Built to Last* Jim Collins, Jerry I. Porras, 2011-08-30 This is not a book about charismatic visionary leaders It is not about visionary product concepts or visionary products or visionary market insights Nor is it about just having a corporate vision This is a book about something far more important enduring and substantial This is a book about visionary companies So write Jim Collins and Jerry Porras in this groundbreaking book that shatters myths provides new insights and gives practical guidance to those who would like to build landmark companies that stand the test of time Drawing upon a six year research project at the Stanford University Graduate School of Business Collins and Porras took eighteen truly exceptional and long lasting companies they have an average age of nearly one hundred years and have outperformed the general stock market by a factor of fifteen since 1926 and studied each company in direct comparison to one of its top competitors They examined the companies from their very beginnings to the present day as start ups as midsize companies and as large corporations Throughout the authors asked What makes the truly exceptional companies different from other companies What separates General Electric 3M Merck Wal Mart Hewlett Packard Walt Disney and Philip Morris from their rivals How for example did Procter Gamble which began life substantially behind rival Colgate eventually prevail as the premier institution in its industry How was Motorola able to move from a humble battery repair business into integrated circuits and cellular communications while Zenith never became dominant in anything other than TVs How did Boeing unseat McDonnell Douglas as the world s best commercial aircraft company what did Boeing have that McDonnell Douglas lacked By answering such questions Collins and Porras go beyond the incessant barrage of management buzzwords and fads of the day to discover timeless qualities that have consistently distinguished out standing companies They also provide inspiration to all executives and entrepreneurs by destroying the false but widely accepted idea that only charismatic visionary leaders can build visionary companies Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels *Built to Last* provides a master blueprint for building organizations that will prosper long into the twenty first century and beyond **Jim Collins' Built to Last** Ant Hive Media, 2016-04-17 This is a Summary

framework for innovation and entrepreneurship competencies empowers individuals to excel at innovation and new venture creation. It provides a practical guide and clear and concise understanding of the knowledge, skills, attitudes, and experiences that are needed to increase imagination, creativity, innovation, and new venture creation capability. Innovation and Entrepreneurship will be attractive for students of entrepreneurship, innovation management, and cross-disciplinary classes such as design thinking. Presented in a modular format, Innovation Entrepreneurship informs the future direction of people and technology as well as the educational systems producing the next generation of innovators and entrepreneurs. Based on extensive academic research, this book is organized into two sections: Twelve innovation elements and twelve competency categories. The elements are the foundation, and the competency categories are the building blocks that inform our path toward a more precise understanding of how innovation and entrepreneurship plays an important role in economic development and our daily lives.

Strong Ground Brené Brown, 2025-09-23 1 New York Times bestselling author Bren Brown returns with an urgent call to reimagine the essentials of courageous leadership. In a time when uncertainty runs deep and bluster, hubris, and even cruelty are increasingly framed as acceptable leadership, Brown delivers practical, actionable insights that illuminate the mindsets and skill sets essential to reclaiming focus and driving growth through connection, discipline, and accountability. Over the past six years, Bren Brown, along with a global community of coaches and facilitators, has taken more than 150,000 leaders in 45 countries through her *Dare to Lead* courage-building work. In *Strong Ground*, Brown shares the lessons from these experiences along with wisdom from other thinkers. This is a vital playbook for everyone, from senior leaders developing and executing complex strategies to Gen Zers entering and navigating turbulent work environments. It is also an unflinching assessment of what happens when we continue to perpetuate the falsehood that performance and wholeheartedness are mutually exclusive. With equal amounts of optimism and caution about AI, Brown writes, "I hear a lot of experts trying to soothe people's anxiety about the pace of technological change by offering platitudes like 'What makes us human will ensure our relevance.' This is dangerous simply because right now we're not especially good at what makes us human. We're not hardwired for this level of uncertainty, and many of us feel as if the constant need to self-protect is driving the humanity right out of us. This is why organizational transformation today must foster deep connection, deep thinking, and deep collaboration. We need the courage to lead people in a way that honors and protects the wisdom of the human spirit." Brown offers a broad assessment of the skill sets and mindsets we need moving forward, including the capacity for respectful and difficult conversations, increased productive urgency, and smart prioritization rather than reactivity and strategic risk-taking, paradoxical thinking, and situational and anticipatory awareness skills. She identifies the toughest skill set as the discipline, humility, and confidence to unlearn and relearn. Brown writes, "Individuals and organizations are building new muscles. Finding our strong ground, that athletic stance, is the only thing that

can provide both unwavering stability in a maelstrom of uncertainty and a platform for the fast explosive change that the world is demanding *High Performing Investment Teams* Jim Ware, Jim Dethmer, Jamie Ziegler, Fran Skinner, 2006-02-24

The Economist, Adrian Wooldridge, 2015-06-02 *The Great Disruption* is a collection drawn from Adrian Wooldridge's influential Schumpeter columns in *The Economist* addressing the causes and profound consequences of the unprecedented disruption of business over the past five years *The Great Disruption* has many causes The internet is spreading faster than any previous technology Emerging markets are challenging the west's dominance of innovation as well as manufacturing Clever management techniques such as frugal innovation are forcing companies to rethink pricing Robots are advancing from the factory floor into the service sector But these developments are all combining together to shake business life and indeed life in general to its foundations *The Great Disruption* is producing a new class of winners many of whom are still unfamiliar Asian has more female billionaires and CEOs than Europe for example It is also producing a growing class of losers old fashioned universities that want to continue to operate in the world of talk and chalk companies that refuse to acknowledge that competition is now at warp speed and business people who think that we still live in the world of company man It is forcing everybody to adapt or die workers realize that they will have to jump from job to job and indeed from career to career and institutions realize that they need to remain adaptable and flexible *The Great Disruption* is all the more testing because it coincides with the Great Stagnation The financial crisis has not only reduced most people's living standards in the west It has also revealed that the boom years of 2000-2007 were built on credit individuals and governments were borrowing money to pay for lifestyles that no longer had any real justification Employees are having to cope with

unprecedented change at a time when they are also seeing their incomes flat or declining Companies are having to respond to revolutionary innovations even as they are seeing their overall markets contract We are all having to run faster in order to stay in the same place This book begins with a long introduction explaining the thesis of the book and setting it in a broad historical context It will also introduce readers to Joseph Schumpeter and explain why his ideas about creative destruction are particularly valuable today
