The Reconceptualization of European Union Citizenship Elspeth Guild, Cristina Gortázar Rotaecche, Dora Kostakopoulou, 2014-01-09 This book maps out from a variety of theoretical standpoints the challenges generated by European integration and EU citizenship for community membership belonging and polity making beyond the state It does so by focusing on three main issues of relevance for how EU citizenship has developed and its capacity to challenge state sovereignty and authority as the main loci of creating and delivering rights and protection First it looks at the relationship between citizenship of the Union and European identity and assesses how immigration and access to nationality in the Member States impact on the development of a common European identity Secondly it discusses how the idea of solidarity interacts with the boundaries of EU citizenship as constructed by the entitlement and capacity of mobile citizens to enjoy equality and social rights as EU citizens Thirdly the book engages with issues of EU citizenship and equality as the building blocks of the EU project By engaging with these themes this volume provides a topical and comprehensive account of the

present and future development of Union citizenship and studies the collisions between the realisation of its constructive potential and Member State autonomy

Remedies Concerning Enforcement of Foreign Judgements Vesna Rijavec, Wendy Kennett, Tomaž Keresteš, Tjaša Ivanc, 2018-09-14 Brussels I Recast Regulation No 1215/2012 on the recognition and enforcement of judgments in civil and commercial matters is intended to simplify and expedite cross border enforcement of debts. However, some existing issues remain unresolved and new ones have already been identified since the Regulation entered into force in 2015. This collection of expert essays is the first book to focus systematically and comprehensively on the area of remedies in the light of Brussels I Recast. It offers detailed analyses of inherent problems and includes practical hypothetical cases illustrating major issues and how they may be resolved. The aspects covered by the contributors are all well known: academics, lawyers and judges from different EU Member States include the following grounds for refusal of recognition and enforcement: certification of enforceability and timely service of the certificate; adaptation of enforcement measures that are determined in the judgment but are not known in the Member State of enforcement; effect of requesting a translation of the judgment; financial implications of remedies and provisional measures and their role in a timely protection of rights. Because the success of Brussels I Recast depends on a very unpredictable implementation into national systems, the extent to which national barriers represent obstacles to fair and efficient judicial protection is thoroughly examined. A very useful concluding chapter presents practical cases highlighting the most important as well as problematic issues concerning enforcement of foreign judgments. The in-depth analyses conducted by the contributors clearly define serious obstacles and propose solutions that will lead to better implementation of Brussels I Recast, better protection of party's rights and further harmonisation in this field of civil justice. This book is sure to be of exceptional value to counsel for multinational enterprises, EU and Member State legislators, enforcement agencies and academics worldwide.

CJEU Case Law in Direct Taxation: Territoriality and Fundamental Freedoms Stephanie Zolles, 2023-07-13 The principle of territoriality and the fundamental freedoms. The tension between the fundamental freedoms and the sovereignty of the Member States is omnipresent in the CJEU's case law on direct taxation. A significant number of cases concerned one of the core principles in national tax laws: the principle of territoriality. Although this principle is continuously mentioned in cases concerning the compatibility of direct tax measures with the fundamental freedoms, the case law seems to provoke more questions than answers. This book provides guidance on the meaning of territoriality in the CJEU's case law on direct taxation as well as on the role which this principle plays in the compatibility of domestic direct tax measures with the fundamental freedoms. During a critical and dogmatically oriented journey through the CJEU's case law, the reader can enjoy a comprehensive analysis containing references to more than 300 cases. Without a doubt, this timeless reflection of the tension between the principle of territoriality and the fundamental freedoms is not only interesting from a dogmatic perspective but also from a tax policy one.
