Re: Final Exam

Final Exam: The date for the final exam is fast approaching. Below you will find important information regarding the structure of the exam and suggestions for how to prepare for it.

Exam Date: Dec. 7, 2013

Length of time to write the exam: 3 hours

Value: 35% of final grade

Bring: pen (for short answer/essay questions), pencil (for op scan sheet), eraser, and picture ID

Exam Structure: There are three parts to the exam worth a total of 90 marks.

Part I: 55 multiple choice questions worth 1 mark each. These questions may be tough, but they are also fairly straightforward. They include a mix of factual (i.e., definitional) and conceptual (i.e., where you have to apply a concept to understanding a scenario) type questions. The primary focus here will be on evaluating your understanding of *textbook material*, though a few questions will be based on your readings package.

Part II: 5 short answer questions worth a total of 25 marks. In each case you will have a choice of questions to answer. These questions are designed so that you should be able to answer them adequately in one paragraph each. Two questions will focus on material covered in the readings package and course notes, while the other three questions will focus more specifically on concepts covered in the textbook.

Part III: Summative Statement of Learning

A 2-3 page summative statement of learning worth 10 marks. As you are being given the question in advance, you are advised to think carefully about your answer prior to the exam as my expectations will be quite high. I will be looking at the level of sophistication, complexity and insight in your statement in determining your grade. While you are not permitted to bring any paper into the exam with you, you are encouraged to write out your answer in advance (or at least sketch out your main points) to ensure that you are well prepared.

The question in Part III on the exam will read exactly as follows:

Until this point in the exam someone else (i.e., the instructor) has imposed a framework for assessing your learning of course materials. Now it is your turn to take the initiative and illustrate on your own terms what you have learned in this course. While you need to reflect on what you have learned in terms of course content, you may also wish to speak to skill development (research, writing, critical thinking, etc.) and/or reflect on ways in which elements of the course have had practical implications for your daily life.

Try to go beyond overly broad assertions (e.g., "I learned a lot about people.") and highlight specific examples to illustrate your points. For example, rather than simply stating "I learned to do research better," you might talk about the particular research skills you feel have been strengthened and consider how those skills were acquired. As another example, rather than simply stating "The course content has had an impact on my daily life," point out how specific theories have been applied in particular contexts of your life.

As you are allotted a maximum of 3 pages for the statement, be sure to express your ideas as clearly and succinctly as possible.
