The Luxor Obelisk and Its Voyage to Paris Jean-Baptiste Apollinaire Lebas, Jean-Baptiste Apollinaire Lebas, 2021-03-08
The extraordinary story of how an obelisk from the banks of Luxor was transferred to the Place de la Concorde in Paris in the early 19th century Transporting the Luxor obelisk from Egypt to Paris was one of the great engineering triumphs of the early nineteenth century No obelisk this size two hundred and fifty tons had left Egypt in nearly two thousand years and the task of bringing it fell to a young engineer Apollinaire Lebas a man of extraordinary resolve and ability His is a tale of adventure excitement and drama but one hardly known to the English speaking world Lebas team was struck by the plague they ran out of wood they had to wait four months for the Nile to rise to free their beached ship But in the end The Luxor with its precious cargo on board sailed down the Nile On October 25 1836 before two hundred thousand cheering Parisians Lebas raised his obelisk He was rewarded handsomely by his king a medal with his name on it was struck and his body lies in the famous Pere Lachaise Cemetery in Paris along with French luminaries Now this first ever translation of Lebas's account including digitally enhanced copies of his beautiful drawings makes his remarkable story available to a wide audience *L'obelisque de Luxor. Histoire de sa translation* Jean Baptiste Apollinaire Lebas, Domenico Fontana, 1839 *The Egyptian Revival* James Stevens Curl, 2013-04-03 In this beautifully illustrated and closely argued book a completely updated and much expanded third edition of his magisterial survey Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day Drawing on a wealth of sources his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West The author deftly develops his argument that the civilization of Ancient Egypt is central rather than peripheral to the development of much of Western architecture art design and religion Curl examines the persistence of Egyptian motifs in design from Graeco Roman Antiquity through the Medieval Baroque and Neo Classical periods rise of Egyptology in the nineteenth and twentieth century manifestations of Egyptianisms prompted by the discovery of Tutankhamun's tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards For students of art architectural and ancient history and those interested in western European culture generally this book will be an inspiring and invaluable addition to the available literature **The Aswân Obelisk** Egypt. from the twentieth century that investigate the relationship between architecture and cultural memory Using a broadly forensic approach to connect details in otherwise disparate cases *Things That Move* is a breathtakingly capacious architectural account that will change the way readers understand buildings their becoming and their significance
