**Literary Lives** David Ellis, 2019-07-29 No detailed description available for Literary Lives **Transforming the Hermeneutic Context** Gayle L. Ormiston, Alan D. Schrift, 1989-09-20 This book presents contemporary analyses of interpretation by some of the most prominent figures in contemporary philosophy and literary criticism These essays question and transform traditional statements on the aims methods and techniques of interpretation The essays demonstrate how contemporary discussions of interpretation are necessarily sent back to the hermeneutic tradition Emphasizing the importance of Friedrich Nietzsche s influence on the contemporary debates concerning current interpretive practices this volume traces the differences in interpretive perspectives generated in the writings of Michel Foucault Eric Blondel Julia Kristeva Jacques Derrida Manfred Frank Werner Hamacher and Jean Luc Nancy The essays by Foucault Blondel Frank Hamacher and Nancy appear here for the first time in English Sartre's

Existential Psychoanalysis Mary Edwards, 2022-10-20 Western philosophical orthodoxy places many aspects of other people s lives outside the scope of our knowledge Demonstrating an alternative to this view however this book argues that Jean Paul Sartre s application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is possible to know everything there is to know about another person It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others By so doing it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes Hegel Husserl Freud Marx and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis Sartre s Existential Psychoanalysis integrates for the first time Sartre s psychoanalysis into his overarching philosophical project By

offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy psychology and psychotherapy *Existentialism and Sociology* Ian Craib,1976-05-06 A revision of the author s thesis Manchester University Bibliography p 229 237 Includes index

**Sartre's Anthropology as a Hermeneutics of Praxis** Kristian Klockars,2019-01-04 First published in 1998 this volume deals with the legacy of Sartre and functions as a way of going beyond Sartre by means of Sartre aiming to understand how we are to understand what we ourselves do and how we are to understand human being and human reality Kristian Klockars main aim is intended to communicate three questions how close Sartre s later anthropology comes to hermeneutics whether the idea of a hermeneutics of praxis could be seen as a possible solution to the internal tensions of Sartre s conception thinking with Sartre beyond Sartre and whether a hermeneutics of praxis can constitute a living challenge to contemporary thought

**Sartre and the Phenomenology of Education** Cameron Bassiri,2023-11-02 Through an engagement with texts that span the entirety of Sartre s career Sartre and the Phenomenology of Education Education for Resistance provides phenomenological analyses of two primary orientations toward education Cameron Bassiri develops a Sartrean approach to education calling it committed education and argues that such education is ultimately a form of resistance to need scarcity the practico inert and their cultural manifestations Bassiri argues that a genuine liberating form of education cultivates the imagination instills the appropriate orientation to time in students and ultimately produces a culture of collective imagining He then develops its complementary opposite institutionalized education which is a form of passive acceptance assimilation and oppression Oppressive approaches to education cultivate perception while repressing or instrumentalizing the imagination impose an understanding of time on students and ultimately produce a culture of perception and restricted serialized imagining Through these analyses Bassiri demonstrates the importance of education for the formation of subjectivity highlighting the role that existential psychoanalysis plays in teaching as well as two distinct forms of the phenomenological reduction operative in the respective orientations toward education Critical

Theory After Habermas Dieter Freundlieb,Wayne Hudson,John F. Rundell,2004-01-01 The essays in this book engage with the broad range of Jürgen Habermas work including politics and the public sphere nature aesthetics the linguistic turn and the paradigm of intersubjectivity Each essay responds to particular difficulties with Habermas approach to these topics Each contributor also draws on different theoretical and philosophical traditions in order to explore recent developments in critical theory

François Lapointe,Claire Lapointe,1981 **Sartre's Two Ethics** Thomas C. Anderson,1993 Sartre s moral thinking progressed from an abstract idealistic ethics of authenticity to a more concrete realistic and materialistic morality Much of Sartre s important unpublished work on ethics relevant to both his first and his second ethics has become available to

scholars only in the years since his death Only now has it become possible to give a complete presentation of both the first and the second ethics and to accurately identify their relationship Sartre's Two Ethics also presents Professor Anderson's original criticisms of Sartre's two ethics and concludes that the second is a significant advance over the first

**Hearts and Minds** Axel Madsen, 2015-03-17 A dual biography of the two most influential socio-political moralists of the twentieth century whose lives were intertwined personally and intellectually for more than forty-six years Madsen provides an engrossing view of the luminously transparent relationship that was unconventional yet faithful to its ideals

**Bibliographie française** Henri Le Soudier, 1900 *The Power of Consciousness and the Force of Circumstances in Sartre's Philosophy* Thomas W. Busch, 1989-11-22 Displaying a masterful grasp of the texts the author shows how otherness forces itself upon the existentialist Sartre gradually constraining him to modify his understanding of consciousness as omnipotent The issue is Sartre's discovery of the social and its conceptual assimilation into his individualistic consciousness-oriented philosophy Thomas R. Flynn This very successful and accessible scholarly book is simultaneously a succinct and clear overview of Sartre's philosophical works and a fresh consideration of Sartre's body of work Choice Busch's admirably clear and compact discussion is essential reading for Sartre scholars since it powerfully addresses many issues dividing them Ethics a useful overview of the evolution of Sartre's thought Review of Politics a thought-provoking reassessment of Sartre's philosophical career Man and World succinct richly documented survey International Studies in Philosophy

Jean-Paul Sartre, the Evolution of His Thought and Art Harold W. Wardman, 1992 This study maintains that Sartre's work and to some extent his life was dominated by the dichotomy of necessity and either freedom or contingency His changing responses to religion art human relationships and politics are explored In politics existentialist subjectivity is needed to guard against the inhumanity of Stalinist pseudoscience Thus Sartre's theatre upholds the values of subjectivity as opposed to historical necessity His Marxism rejects economic determinism and affirms the importance of freedom under capitalism and Stalin men connive at a servitude from which the apocalyptic revolt of the group in fusion is seen as a deliverance Through a critique of Flaubert's misanthropy while recognising his dedication to art Sartre is finally convinced that man at his most elemental is possible In

his autobiography he sees himself as no longer a demiurge but an anonymous embodiment of the concrete universal

**L'ouvrier**, 1881      **Sartre and Magic** Daniel O'Shiel, 2019-06-27 Jean Paul Sartre's technical and multifaceted concept of magic is central for understanding crucial elements of his early philosophy 1936 1943 not least his conception of the ego emotion the imaginary and value Daniel O Shiel follows the thread of magic throughout Sartre's early philosophical work Firstly Sartre's work on the ego 1936 shows a personal reflective form of consciousness that is magically hypostasized onto the pre reflective level Secondly emotion 1938 is inherently magical for Sartre because emotive qualities come to inhere in objects and thereby transform a world of pragmatism into one of captivation Thirdly analyses of *The Imaginary* 1940 reveal that anything we imagine is a spontaneous creation of consciousness that has the power to enchant and immerse us even to the point of images holding sway over us Culminating with Sartre's ontological system of Being and Nothingness 1943 O Shiel argues that Sartre does not do away with the concept but in fact provides ontological roots for it This is most evident in Sartre's analyses of value possession and language A second part shows how such Sartrean magic is highly relevant for a number of concrete case studies the arts advertising racism and stupidity and certain instances of psychopathology O Shiel shows that Sartre's magical being is important for any contemporary philosophical anthropology because it is essentially at work at the heart of many of our most significant experiences both creative and damaging      Sartre's Existential

Biographies Michael Scriven, 1983-12-15      **New Perspectives on Sartre** Adrian van den Hoven, Adrian Mirvish, 2010-05-11 This volume deals with a number of topics that have not previously been specifically addressed before in a single text A chapter on Sartre and religion talks about his thought in relation to Christianity Judaism and Buddhism while one on Sartre and children discusses his work in relation to the issues of freedom pregnancy and autism Beyond this there are an additional seven chapters covering a wide variety of topics by leading scholars in the fields of philosophy literature psychology history and political thought While prior publications on Sartre have generally divided his work into two periods pre and post Marxist this volume deliberately stresses a middle and final period as well As representative of the middle period there is an emphasis on *Notebooks for an Ethics* while Sartre's last work *Hope Now* is also treated as being philosophically significant in its own right This approach helps to cast a new light on what Sartre has to say about authenticity childhood and consciousness as embodied among other subjects The volume also addresses many and diverse issues of current interest including those of freedom Marxism and Sartre's relation to ethics There are sections of the book that deal with history and the historical situations that helped to shape Sartre's thought as well as articles that deal with Sartre as a specifically French thinker A chapter deals with Sartre's relation to women and here the issues of maternity as problematic plus authentic adult relationships are discussed Finally in addition to authors in philosophy and literature there are articles by a child psychiatrist and a clinical psychologist to help to provide new insights on Sartre's work Even as an academic philosopher Sartre always remained an iconoclast and the aim of this book is at least partially to capture and provide the reader with insight into this
