The Oxford Guide to Literature in English

Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the Thousand and One Nights or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Zhivago's Secret Journey Paolo Mancosu, 2016-09-01 Paolo Mancosu continues an investigation he began in his 2013 book Inside the Zhivago Storm which the New York Book Review of Books described as a tour de force of literary detection worthy of a scholarly Sherlock Holmes In this book Mancosu extends his detective work by reconstructing the network of contacts that helped Pasternak smuggle the typescripts of Doctor Zhivago outside the Soviet Union and following the vicissitudes of the typescripts when they arrived in the West Mancosu draws on a wealth of firsthand sources to piece together the long standing mysteries surrounding the many different

typescripts that played a role in the publication of Doctor Zhivago thereby solving the problem of which typescript served as the basis of the first Russian edition a pirate publication covertly orchestrated by the Central Intelligence Agency CIA He also offers a new perspective aided by the recently declassified CIA documents by narrowing the focus as to who might have passed the typescript to the CIA In the process Mancosu reveals details of events that were treated as top secret by all those involved vividly recounting the history of the publication of Pasternak's epic work with all its human and political ramifications

European Literature and Theology in the Twentieth Century David Jasper, Colin Crowder, 2009-06-17 The central themes of this collection of essays are the mystery of time past present and future and the problems of redemption They are concerned with modern literature the threat of meaninglessness in the postmodern condition and the possibility of salvation In an age of deferral and difference this book addresses itself to eschatology and apocalypse and redemption in through but particularly of time itself Hell and madness are never far away yet the reconfiguration of time and the breaking in of the transcendent continue to suggest theological possibilities beyond the wastelands of the twentieth century To those possibilities we look in hope

Art in Zion Dalia Manor, 2004-12-03 Art in Zion deals with the link between art and national ideology and specifically between the artistic activity that emerged in Jewish Palestine in the first decades of the twentieth century and the Zionist movement In order to examine the development of national art in Jewish Palestine the book focuses on direct and indirect expressions of Zionist ideology in the artistic activity in the yishuv the Jewish community in Palestine In particular the book explores two major phases in the early development of Jewish art in Palestine the activity of the Bezalel School of Art and Crafts and the emergence during the 1920s of a group of artists known as the Modernists

Of Essence and Context Rūta Stanevičiūtė,Nick Zangwill,Rima Povilionienė,2019-06-01 This book provides a new approach to the intersections between music and philosophy It features articles that rethink the concepts of musical work and performance from ontological and epistemological perspectives and discuss issues of performing practices that involve the performer s and listener s perceptions In philosophy the notion of essence has enjoyed a renaissance However in the humanities in general it is still viewed with suspicion This collection examines the ideas of essence and context as they apply to music A common concern when thinking of music in terms of essence is the plurality of music There is also the worry that thinking in terms of essence might be an overly conservative way of imposing fixity on something that evolves Some contend that we must take into account the varying historical and cultural contexts of music and that the idea of an essence of music is therefore a fantasy This book puts forward an innovative approach that effectively addresses these concerns It shows that it is in fact possible to

find commonalities among the many kinds of music The coverage combines philosophical and musicological approaches with bioethics biology linguistics communication theory phenomenology and cognitive science The respective chapters written by leading musicologists and philosophers reconsider the fundamental essentialist and contextualist approaches to music creation and experience in light of twenty first century paradigm shifts in music philosophy Official Program of the ...
