Essentials of Life-Span Development John W. Santrock, 2011-02 Why are you assigning or considering a brief Human Development text? Is it because your students do not complete the reading in a comprehensive text? Do you run out of time trying to cover the entire lifespan over the course of a few months? Do your students struggle to retain the sheer volume of information in the course? Instructors across the country looking for a streamlined text that captures the core concepts of life span development are excited for John Santrock's Essentials of Life Span Development 3e. Essentials of Life Span Development 3e was developed to help meet the ever-changing needs of students in the lifespan course. Knowing that students do not often read the text and have poor study skills, Essentials introduces LearnSmart, McGraw Hill's adaptive study tool that helps students know what they know and more importantly what they don't know to become more efficient and effective learners. Based on hallmark features, its expert contributors, updated research, and focus on applications, Santrock provides the most dependable and current presentation of life span development available, and he does so in a briefer format with LearnSmart helping to ensure that your students will read and appreciate the material while seeing the applications to their everyday life. McGraw Hill's new Milestones video and assessment program helps bring the course material to life so your students can witness development as it unfolds.
