Transforming Early Head Start Home Visiting Bridget A. Walsh, Jennifer A. Mortensen, 2019-10-29. Research on home visiting shows that Early Head Start (EHS) home based programs benefit from additional training and resources that streamline philosophy and content. In this essential guide, Walsh and Mortensen propose that alignment with Family Life Education's (FLE) strengths based methodology results in greater consistency through a model of prevention education and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a qualitative study of FLE integrated in a current EHS home based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence based home visiting practices. Online content accompanies the text with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. *Transforming Early Head Start Home Visiting: A Family Life Education Approach* is essential reading for upper level undergraduate and masters students in
