Applying a Multi-skilled Soldier (MSS) Concept to the Stryker Brigade Combat Team (SBCT) John T. Nelsen,2003 The general purpose of this study was to deepen and broaden thinking about the nature and implications of possible Multi Skilled Soldier MSS Concept implementation Specific objectives were 1 to determine applicability of the MSS to the Stryker Brigade Combat Team SBCT as it might be implemented in Initial Entry Training IET and 2 to prototype MSS Concept implementation for the SBCT considering possible implementation for the Future Force The report also defines the MSS shows how the MSS Concept might fit conceptually within a larger Army training education and professional development model for Soldiers of all ranks offers an MSS Program design for IET and crafts actionable recommendations

regarding general MSS implementation for IET The study concludes that the MSS Concept is fully applicable to the SBCT as well as the so called Current Force It also concludes that MSS implementation would have a significant salutary effect on unit training readiness postures across the force This study relied heavily on insights and analysis gained from interviews with groups of senior NCOs and officers within the 3rd Brigade SBCT 2nd Infantry Division Ft Lewis WA during September 2002

[The US Volunteers in the Southern Philippines](#)

John Scott Reed, 2020-07-23 In fighting the Philippine American War the United States counted heavily on twenty five new regiments raised in the summer of 1899 the United States Volunteers USVs The USVs outnumbered regular regiments in eleven of eighteen military pacification districts particularly through the southern archipelago where they bore the brunt of field service combat and disease casualties until relieved in spring 1901 by a reconstituted Regular Army The US Volunteers in the Southern Philippines offers the first full account of this historically unique 35 000 man force and in the process describes how the USVs decisively contributed to the United States single most successful counterinsurgency campaign waged outside the Western Hemisphere A close examination of the military achievements garrison life and institutional characteristics of the US Volunteers reveals how the force effectively combined the best elements of the American regular and militia traditions during its brief existence abetted by an Army medical system vastly improved since debilitating losses in Cuba and the United States during 1898 Countering recent readings of the pacification of the Philippines as a near genocidal event John Scott Reed uses court martial records to argue for a high disciplinary and behavioral standard among the USVs in garrison in the field and most critically in their interactions with Filipino villagers This standard his evidence suggests was supported by a late Victorian reflexively patriotic sense of masculinity that motivated the Volunteers along with a profound belief in the self evident superiority of American institutions He also draws on recent Filipino scholarship to clarify the role of landed and commercial elites in initially supporting the Philippine Revolution and later collaborating with the US occupation Bridging military history and post colonial studies Reed s work provides a new and clearer understanding of the short lived but highly effective US Volunteer force and a new perspective on a critical moment in America s military

and colonial past **Research Product - U.S. Army Research Institute for the Behavioral and Social Sciences** ,2005
