

MARK SCHEME for the May/June 2014 series

0625 PHYSICS

0625/31

Paper 3 (Extended Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

The Report: Bahrain 2015 Oxford Business Group, 2015-02-27 The kingdom rose to prominence as the region's financial hub in the 1970s and today despite increasing competition from its neighbours it is bolstering this position as it leads the way in the Islamic banking segment hosting the highest concentration of Islamic financial institutions globally The takaful segment represents one of the fastest growing segments in Bahrain's insurance sector itself boasting the highest insurance penetration rate in the GCC Meanwhile a rising population is driving housing and transport infrastructure in the country with private contractors benefitting as a result Looking forward these expansions to rail and air links should boost the kingdom's tourism offering with tourism's contribution to GDP expected to grow significantly over the next 10 years while elsewhere the projects will drive Bahrain's role as a regional logistics centre with the kingdom aiming to position itself as a key entry point to the GCC moving forward

SouthSouth Trade and Finance in the Twenty-First Century Omar Dahi, Firat Demir, 2016-10-10 This book is a contribution to the international trade and economic development literature and is based on a decade of joint research and collaboration on South South economic relations Given the increasing focus on the economic power of some developing countries for example the 2013 Human Development Report's Rise of the South it is particularly appropriate and timely NP The book's findings are based on rigorous empirical examination of South South trade and finance and it provides an even handed assessment from the perspective of long term development goals rather than mainstream welfare approaches or ideological theoretical worldview NP This work directly engages with the new developmentalism literature that has challenged the neoliberal orthodoxy and its policy approach which focuses on liberalization privatization and deregulation It also engages with literature by examining whether the increase in South South trade facilitates or inhibits the possibilities for developmentalist economic policy in developing countries The book shows concrete and positive results from South South trade particularly related to industrial development and also documents how South South trade is dominated by large developing countries and that South South trade liberalization may be counterproductive
