Duramany-Lakkoh,2020-12-07 This book provides a detailed overview and analysis of key macroeconomics variables in Sierra Leone from 1980 to 2015 Like Sierra Leone and Ghana many nations depend primarily on taxation as a means of galvanizing the required resources needed to meet public expenditure requirements As a result it is critical to study how fiscal variables change and how private investment can improve life for everyone Dr Ezekiel K Duramany Lakkoh dean of the faculty at University of Sierra Leone explores Sierra Leone s fiscal policy and how it s changed over time in this academic work Topics include economic growth beginning in 2010 social and economic reform programs monetary policy and its effect on inflation external and domestic debt management The author also highlights how government spending has influenced private investment at home and abroad as well as how a re established political order has contributed to impressive growth Whether you do business in Sierra Leone want to do business there have a connection to the country or are a citizen or native you ll find valuable insights in this book **Between Governing and Governance** Poul F Kjaer,2010-02-05 This book explains the emergence and functioning of three forms of governance structures within the context of the European integration and constitutionalisation process comitology regulatory agencies and the Open Method of Co ordination The point of departure is the insight that the intergovernmental supranational distinction which most theories of European integration and constitutionalisation rely on has lost its strength A new paradigm of EU research is therefore needed Against this background it is suggested that the distinction between governing and governance provides a more appropriate basis for analysing the phenomenon of integration and constitutionalisation in Europe The distinction between governing and governance allows for an understanding of the EU as a hybrid consisting of a governing dimension characterised by legal and organisational

hierarchy and a governance dimension which operates within a network form characterised by legal and organisational heterarchy The function of governance structures is to ensure the embeddedness of the governing dimension in the wider society Instead of representing contradictory developments the two dimensions are therefore mutually constitutive in the sense that more governing implies more governance and vice versa These theoretical insights are illustrated through two detailed case studies which respectively reconstruct the operational mode of the Open Method of Coordination within EU Research Development Policy and the regulatory system for the EU chemicals market REACH The book is inter disciplinary in nature and incorporates insights from law political science and sociology Coatings and Inks for Food Contact Materials Martin Forrest,2007-10 This Rapra Review Report Coatings and Inks for Food Contact Materials has attempted to cover all of the coatings and inks products used in food contact scenarios In practice this encompasses an extremely wide range of polymer systems and formulations and an emphasis has been placed on coatings and inks used in food packaging as this is usually regarded as representing the most important application category with respect to the potential for migration to occur In addition to a thorough introduction of the polymers and additives that are used to produce coatings and inks there are also chapters covering the regulation of these materials the migration and analytical tests that are performed on them to assess their suitability for food contact applications the migration data that have been published and the areas in the field that are receiving the most attention for research and development The report is accompanied by around 400 abstracts compiled from the Polymer Library to facilitate further reading on this subject *Publishing Subversive Texts in Elizabethan England and the Polish-Lithuanian Commonwealth* Teresa Bela,Clarinda Calma,Jolanta Rzegocka,2016-07-11 Publishing Subversive Texts in Elizabeth England and the Polish Lithuanian Commonwealth offers recent research in book history by analysing the impact of early modern censorship on book circulation and information exchange in Elizabethan England and the Polish Lithuanian Commonwealth In fourteen articles the various aspects of early modern subversive publishing and impact of censorship on the intellectual and cultural exchange in both England and Poland Lithuania are thoroughly discussed The book is divided into three main parts In the first part the presence and impact of British recusants in the Polish Lithuanian Commonwealth are discussed Part two deals with subversive publishing and its role on the intellectual culture of the Elizabethan Settlement Part three deals with the impact of national censorship laws on book circulation to the Continent
