Salvatore Garfi,2019-08-31 This volume is an archaeological exploration of the conflict landscapes encountered by volunteers of the International Brigades in the Spanish Civil War 1936-39 This research draws not only on the techniques of landscape archaeology but also on the writings of international volunteers in Spain in particular George Orwell Why States Matter in Economic Development Jawied Nawabi,2024-04-29 This book examines the underlying conditions that give rise to states that are effective efficient and bureaucratically inclusive with their developmental policies In spite of humanity s significant advancements in science technology and institutionalization of universal human rights conventions in the last seven decades many countries are still failing to achieve successful development results As a result enormous levels of inequality poverty and malnutrition prevail This book focuses on the role of the state in the political economy of development tracing the socio-economic origins of effective state institutions from a comparative historical institutional perspective Drawing on the case studies of South Korea Brazil India Spain France and England the study looks at how good state institutions form and why these are central to the socioeconomic advancement of their populations The book contends that effective developmental states are those in which state actors are able to effectively diminish and co-opt the power of the country s landed elites during the early years of state building Effectively the power balance between these two classes determines the developmental trajectory of the state Considering agrarian reform as the foremost indispensable policy tool to open conditions for positive changes in effective taxation education healthcare and strategic sustainable industrial policies this analysis offers a significant contribution to the literature on the sociology of institutions and the political economy of development As well as being a key reading for advanced students and researchers in these areas this book draws real life policy lessons for practitioners and policy makers in the developing world

**Mexicano and Latino Politics and the Quest for Self-Determination** Armando Navarro,2015-01-08 This book examines the current status of Mexicano and Latino politics in the United States Political scientist and community activist Armando Navarro maintains that both represent a dysfunctional and failed mode of politics attributable to their system maintenance and mainstream ideological orientation and approach As colonial agents they protect both a United States that is decaying and declining and the degenerative liberal capitalist system Navarro argues that the United States is not a

representative democracy but in fact is a White Corpocratic Dictatorship controlled by Capital which is evolving into a Fascist State The book provides an in depth analysis and contention that Mexicanos and Latinos in Aztlan Southwest are an occupied and internal colonized people It argues they are the Palestinians and Kurds of the United States His supposition is sustained by the book s profiles of Mexicano political history demography socioeconomics electoral politics immigration and the Triad Crisis e g Second Great Depression Global Economic Crisis and Global Capitalist Crisis Each chapter provides the justification and case for Navarro s two unique alternative change models applicable to today s bankrupt and failed Mexicano and Latino Politics in the twenty first century The preferred model is Aztlan s Politics of a Nation Within a Nation APNWN which is based on the models of the Mormon Nation of Utah and that of French Quebec Navarro therefore calls for the reformation of the United States liberal capitalist system by way of social democracy for the empowerment of Mexicanos and Latinos His second model is Aztlan s Politics of Separatism APS which offers two strategic options 1 Aztlan Southwest becoming a separate and sovereign nation state or 2 its reannexation and re integration with Mexico Navarro outlines a plan of action for building a New Movement designed to attain APNWN or APS In addition several ominous forecasts are made such as the United States being in a state of decline and no longer a hegemonic superpower due to the rise of a multi polar world Moreover Navarro attributes the United States decline to the inherent contradictions of global capitalism His sobering message is that if the current economic conditions are left unchanged this will produce an End of Times scenario the unleashing of the Four Horseman of the Apocalypse
