Written by a diverse group of scholars and practitioners, this book advances the field of public policy by critically examining whether and how direct citizen participation may add value to government business. Structurally, the book focuses on the core topics of public administration, the generation of public services, the design and implementation of public policies, citizens and networks, new business models, and local perspectives. In recent years, there has been growing interest in Turkey, stemming from the country's developing role in regional and global politics, its expanding economic strength, and its identity as a predominantly Muslim country with secular political institutions and democratic processes. This Handbook provides a comprehensive and wide-ranging profile of modern Turkey. Bringing together original contributions from leading scholars with a wide range of backgrounds, this important reference work gives a unique in-depth survey of Turkish affairs, past and present.
