

## The relation between the OIE *Terrestrial Manual* and the OIE *Terrestrial Code*

- Although the OIE list of Prescribed and Alternative Tests gives only summary descriptions of the tests (e.g. “ELISA”, or “PCR”) it should not be assumed that all tests under that description are suitable for international movement. Only the method described in the *Terrestrial Manual* should be used, or else a method that has been fully validated to show equivalent performance to the designated Prescribed Test method. “Validation” in this context means compliance with the OIE validation template and the more detailed description in the validation chapter of the *Terrestrial Manual*.

*Wild Mammals in Captivity* Devra G. Kleiman, Katerina V. Thompson, Charlotte Kirk Baer, 2010-08-15 Zoos aquaria and wildlife parks are vital centers of animal conservation and management For nearly fifteen years these institutions have relied on *Wild Mammals in Captivity* as the essential reference for their work Now the book reemerges in a completely updated second edition *Wild Mammals in Captivity* presents the most current thinking and practice in the care and management of wild mammals in zoos and other institutions In one comprehensive volume the editors have gathered the most current information from studies of animal behavior advances in captive breeding research in physiology genetics and nutrition and new thinking in animal management and welfare In this edition more than three quarters of the text is new and information from more than seventy five contributors is thoroughly updated The standard text for all courses in zoo biology *Wild Mammals in Captivity* will in its new incarnation continue to be used by zoo managers animal caretakers researchers and anyone with an interest in how to manage animals in captive conditions

**Risk-based examples and approach for control of *Trichinella* spp. and *Taenia saginata* in meat** ,2020-06-30 **Risk-based examples and approach for control of *Trichinella* spp. and *Taenia saginata* in meat** Food and Agriculture Organization of the United Nations ,World Health Organization,2020-11-03 Human trichinellosis is caused by the consumption of raw or inadequately treated meat from domestic or game animals containing the larvae of parasites of the *Trichinella* species *Taenia saginata* causes bovine cysticercosis a parasitic disease of cattle by the larval stage *Cysticercus bovis* of the human tapeworm *Taenia saginata* Taeniosis infection of humans with the adult tapeworm occurs following consumption of beef with cysticerci that has not been sufficiently heated or frozen to kill the parasite This report provides the spreadsheet models resulted in effective generation of the quantitative information needed by public health officials when evaluating different postmortem meat hygiene programmes for *Trichinella* spp and *Taenia saginata* in meat The models enable the development of science based risk scenarios to assess the effect of various changes to digestion testing and meat inspection for *Trichinella* spp and *Taenia saginata* on the residual risk of human trichinellosis and taeniosis The outcome of estimation is based on changes in relative risks rather than specific estimates of risk

**The Veterinary Laboratory and Field Manual 3rd Edition** Susan C. Cork, Roy Halliwell, 2019-06-03 Isolated regions of the world are often at the forefront of emerging diseases and to be effective in disease prevention and control they require basic resources for field sample collection and testing in conditions vastly different from those available in well equipped reference laboratories Technical support for field extension staff and the availability of reliable diagnostic testing facilities are also vital to ensure sustainable livelihoods for subsistence farmers This technical handbook aims to provide an easy to follow overview of the basic laboratory techniques and sample collection guidelines that we consider useful for staff working in district veterinary facilities in regions that lack the infrastructural support available for staff with ready access to national veterinary laboratories The Veterinary Laboratory and Field Manual

3rd Edition provides the reader with a summary of basic diagnostic procedures and sample submission guidelines and also advocates for improved communication between animal health extension staff veterinarians laboratory staff and farmers Case studies are used to illustrate key concepts Basic laboratory disciplines are covered including parasitology microbiology haematology serology immunology and pathology There are also sections on laboratory infrastructure and equipment There is additional content on common clinical presentations One Health approaches to Antimicrobial resistance the role of the OIE disease surveillance and wildlife disease monitoring Supplementary tools for use in the field and laboratory are also available online This new edition of The Veterinary Laboratory and Field Manual is updated to include content on pen side tests selection and integration of new technologies engagement with international agencies and programs and the One Health approach to disease monitoring Animal Health extension staff in isolated regions of the world and NGOs can benefit from this book as well as policy makers supporting veterinary work in rural areas and veterinary para professionals involved in One Health work 5m Books

**International Harmonization of Economic Regulation** Junji Nakagawa,2011 With the advancing globalization of the world economy domestic economic regulations are becoming more and more subject to efforts at international harmonization This book presents an analysis of this worldwide phenomenon from both a legal and a politico economic perspective by focusing on 1 the backgrounds and objectives of international harmonization 2 the negotiating processes involved and 3 the impact of harmonization on domestic laws and their administration International harmonization is discussed in a wide range of cases including trade related regulations technical standards and food safety standards intellectual property rights labour standards competition law and policy financial regulations and regulations concerning transnational economic crime Drawing on a wide range of materials and applying a unified analytical framework based on theoretical as well as practical observations the book surveys this much debated topic in a comprehensive and accessible way It thus contributes to a better understanding of both the chances and the challenges of globalization and global governance today

**Encyclopedia of Food Safety** ,2013-12-12 With the world s growing population the provision of a safe nutritious and wholesome food supply for all has become a major challenge To achieve this effective risk management based on sound science and unbiased information is required by all stakeholders including the food industry governments and consumers themselves In addition the globalization of the food supply requires the harmonization of policies and standards based on a common understanding of food safety among authorities in countries around the world With some 280 chapters the Encyclopedia of Food Safety provides unbiased and concise overviews which form in total a comprehensive coverage of a broad range of food safety topics which may be grouped under the following general categories History and basic sciences that support food safety Foodborne diseases including surveillance and investigation Foodborne hazards including microbiological and chemical agents Substances added to food both directly and indirectly Food technologies including the latest developments Food commodities including their potential hazards and controls Food safety management systems including their elements and the roles of stakeholders The Encyclopedia provides a platform for experts from the field of food safety and related fields such as nutrition food science and technology and environment to share and learn from state of the art expertise with the rest of the food safety community Assembled with the objective of facilitating the work of those working in the field of food safety and related fields such as nutrition food science and technology and environment this work covers the entire spectrum of food safety topics into one comprehensive reference work The Editors have made every effort to ensure that this work meets strict

quality and pedagogical thresholds such as contributions by the foremost authorities in their fields unbiased and concise overviews on a multitude of food safety subjects references for further information and specialized and general definitions for food safety terminology In maintaining confidence in the safety of the food supply sound scientific information is key to effectively and efficiently assessing managing and communicating on food safety risks Yet professionals and other specialists working in this multidisciplinary field are finding it increasingly difficult to keep up with developments outside their immediate areas of expertise This single source of concise reliable and authoritative information on food safety has more than ever become a necessity Federal Register ,2013-12 Foot and mouth disease vaccination and post-vaccination monitoring Food and Agriculture Organization of the United Nations,2018-08-21 Foot and mouth disease FMD control and or eradication efforts have been in existence for many years in different regions supported by an official OIE system for recognition of national control programmes and of country status to manage the trade risks for FMD reintroduction A global FMD control strategy was announced by FAO and OIE in 2012 incorporating a progressive control pathway for FMD PCP FMD that elaborates principles for the application of control measures in a step wise manner The OIE Performance of Veterinary Services tool helps countries to monitor the structures essential for programme implementation Vaccination is an important component of programmes that seek to reduce the impacts of FMD and to block circulation of the causative virus in order to establish and maintain disease freedom Choosing and successfully implementing the appropriate vaccine and vaccination regimens are affected by many dynamic factors including 1 the diversity of the viruses to be controlled 2 the performance characteristics and instability of vaccines 2 the range of susceptible animal species and husbandry systems 3 the purposes of vaccination 4 the short lived nature of vaccine induced immunity and 5 the design and application of vaccination programmes Furthermore vaccination is unlikely to succeed unless supported by other complementary control measures Therefore the entire process of vaccine selection and vaccination must be continuously monitored and evaluated to ensure that it fulfils its objectives and contributes to a sustainable control of FMD This document is intended to help guide this process Since the variable and changing circumstances of FMD control require different approaches the guidance is not prescriptive Instead it reviews the options available for vaccine selection and vaccination strategies and presents methodology to check that a potential vaccine is able to provide a protective immune response and that the implemented vaccination programme has translated this into a protective level of population immunity **Animals in the International Law of Armed Conflict** Anne Peters,Jérôme de Hemptinne,Robert Kolb,2022-10-06 Raises the novel legal question of animals during warfare highlighting deficiencies in current practice and suggesting new readings and reforms Foot and Mouth Disease Francisco Sobrino,Esteban Domingo,2019-04-30 The shock following the recent outbreak of foot and mouth disease FMD in the UK dispelled the notion that this disease was permanently under control and could be forgotten FMD proved to be an endemic disease in many countries and continues to pose a major threat to animal health worldwide The
