Music, Books on Music, and Sound Recordings ,1975 *The Complete Professional Audition* Daren Cohen, Michael Perilstein, 2010-06-09 In the United States there are 300 000 actors 100 000 hold union cards There are 184 college theater programs and 108 performing arts high schools There are 578 acting schools and coaches in New York City and Los Angeles alone The Complete Professional Audition is the one book all of those actors need because before actors can act they have to pass the audition Here s practical hand holding advice for choosing material rehearsing warming up staying calm standing out in a crowd understanding casting avoiding pitfalls following up getting the right headshot and resume and accepting an offer There s even a section on handling rejection not that The Complete Professional Audition user is ever going to need that of course Ultra useful appendices of recommended songs and monologues yes make this the complete guide for everyone with an audition coming up Designed for both play and musical auditions There are 300 000 actors and acting students in the US and all of them want an edge at the audition Through his workshops and seminars author Darren Cohen knows exactly what actors need to pass an audition and get that part Practical down to earth ideas that work From the Trade Paperback edition **The Billboard** ,1926 *Yodeling and Meaning in American Music* Timothy E. Wise, 2016-10-28 Timothy E Wise

presents the first book to focus specifically on the musical content of yodeling in our culture. He shows that yodeling serves an aesthetic function in musical texts. A series of chronological chapters analyzes this musical tradition from its earliest appearances in Europe to its incorporation into a range of American genres and beyond. Wise posits the reasons for yodeling's changing status in our music. How and why was yodeling introduced into professional music making in the first place? What purposes has it served in musical texts? Why was it expunged from classical music? Why did it attach to some popular music genres and not others? Why does yodeling now appear principally at the margins of mainstream tastes? To answer such questions, Wise applies the perspectives of critical musicology, semiotics, and cultural studies to the changing semantic associations of yodeling in an unexplored repertoire stretching from Beethoven to Zappa. This volume marks the first musicological and ideological analysis of this prominent but largely ignored feature of American musical life. Maintaining high scholarly standards but keeping the general reader in mind, the author examines yodeling in relation to ongoing cultural debates about singing music as art, social class, and gender. Chapters devote attention to yodeling in nineteenth-century classical music, the nineteenth-century Alpine-themed song in America, the Americanization of the yodel, Jimmie Rodgers, and cowboy yodeling among other topics.
