**Proportionality and Facts in Constitutional Adjudication** Anne Carter, 2022-01-27 This book considers the relationship between proportionality and facts in constitutional adjudication. Analysing where facts arise within each of the three stages of the structured proportionality test suitability necessity and balancing it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation. The book's central focus is on how proportionality has been applied by courts in practice and it draws on the comparative experience of four jurisdictions across a range of legal systems. The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests. The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages. The book has three broad aims. First it considers the role of facts within proportionality reasoning. Second it offers procedural insights into fact finding in constitutional litigation. Third the book's analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status

of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely

*Peter Akinola: Who Blinks First?* Gbenga

Gbesan,2020-03-30 To the astonishment and dismay of Anglican leadership in the Global North Nigeria's Archbishop Peter Akinola led the Global South's revolt against the campaign to normalize homosexuality within the global Anglican communion. For this he was twice recognized by Time magazine as one of the 100 Most Influential People on earth. As shepherd of an immense Nigerian flock he joined arms with like-minded archbishops in Africa, Asia and South America to insist that the church be guided by the Bible rather than culture. Here is the remarkable story of this conflict from its social beginnings in nineteenth-century Germany through the renegade behavior of national churches in Canada, the United States and the United Kingdom on to gatherings addressing the issues from Dromantine Northern Ireland to Kuala Lumpur, Malaysia. At one point Archbishop of Canterbury Rowan Williams who had been enabling the progressives challenged Archbishop Akinola. We shall see who blinks first. Since that day it is clear that neither Akinola nor his colleagues have blinked. Indeed, through the formation of GAFCON (Global Anglican Future Conference) and union with biblically faithful Anglicans in the Global North they are pressing their cause with an eye toward the next decennial assembly of bishops at Lambeth.

**Related Party Transactions and Corporate Groups** Ivan Romashchenko,2020-03-06 In a market environment where economic actors conduct themselves as diligent and conscientious managers, the regulation of related party transactions (RPTs) would be largely irrelevant. Unfortunately, the corporate reality is far from an ideal world that is innocent of market abuse and corporate fraud. It remains necessary to protect minority shareholders from the wrongdoings of majority shareholders and to protect all shareholders from opportunistic managerial behaviour. This timely book, the first on the subject since implementation of the European Union's EU's revised Shareholders Rights Directive, provides in-depth analysis of how and to what extent RPTs are covered by existing legal requirements on capital protection and corporate group regulation, highlighting experiences and strategies adopted in Germany, Poland and the Netherlands as examples for Eastern European countries and in particular Ukraine. Beyond his comparative analysis of the current status, the author offers recommendations for more effective handling of RPTs, investigating such aspects as the following: what constitutes a corporate group and how group issues are regulated in the various legal systems; what constitutes a conflict of interest originating in ownership and control and what types of such conflicts occur; whether RPTs within corporate groups should receive special treatment relative to transactions outside groups; combatting corporate raiding, most often carried out through illegal seizure of corporate assets; approval and disclosure requirements for RPTs; and how information about RPTs is disclosed publicly. Drawing on resources including legislation, case law, scholarship and intensive discussions with practicing lawyers from several jurisdictions, the author underscores the imperative of establishing limitations and requirements that oblige a company's officers, shareholders and other potential related parties to follow certain rules whenever they wish to enter into an RPT. As a contribution to the debate about the convergence between EU corporate law and that of major eastern European states, the book has no peers. Practitioners in both East and West who advise on compliance with regulations for RPTs or

represent stakeholders interests against abusive RPTs will ensure appropriate remedies and protection mechanisms for their clients
