**The End of Stationarity** Mark Schapiro,2016-05-17 Scientists have devised a new term to explain the turmoil caused by climate change the end of stationarity It means that our baselines for rainfall water flow temperature and extreme weather are no longer relevant that making predictions based on past experience is no longer possible But climate change has upended baselines in the financial world too disrupting the global economy in ways that are just becoming clear leaving us unable to assess risk and causing us to fundamentally re think economic priorities and existing business models At the heart of that financial unrest is the role of carbon and as the world moves toward making more and more polluters pay to emit it a financial mystery unfolds What are the costs Who has the responsibility to pay for them Who do you pay How do you pay And how will those costs ripple through the economy These are the questions veteran journalist Mark Schapiro attempts to answer as he illuminates the struggle to pinpoint carbon s true costs and allocate them fairly all while bumping up against the vagaries of the free market the lobbying power of corporations the political maneuverings of countries and the tolerance of everyday consumers buying a cup of coffee a tank of gas or an airplane ticket Along the way

Schapiro tracks the cost of carbon through the drought ridden farmland of California the jungles of Brazil the world s greatest manufacturing center in China the carbon trading center of Europe and the high tech crime world that carbon markets have inspired He even tracks the cost of carbon through the skies themselves where efforts to put a price tag on the carbon left by airplanes in the no man s land of the atmosphere created what amounted to a quiet but powerful global trade war The End of Stationarity deftly depicts the wild new carbon economy and shows us how nations emerging and developed teeter on its brink Originally published in hardcover as Carbon Shock the book is updated throughout and includes a new afterword based on the Paris climate talks    [Collapse of the Global Order on Drugs](#) Axel Klein,Blaine Stothard,2018-09-28 The 2016 UNGASS on drug policy resulted in an Outcome Document detailing profound differences of opinion and practice between different states polarising public health and human rights themes This book examines the different positions the underlying problems and the options open for the next international gathering on drugs    *Carbon Shock* Mark Schapiro,2014 Nothing provided    **ACCA P6 Advanced Taxation FA2015** BPP Learning Media,2016-02-01 BPP Learning Media s status as official ACCA Approved Learning Provider Content means our ACCA Study Texts and Practice Revision Kits are reviewed by the ACCA examining team BPP Learning Media products provide you with the exam focussed material you need for exam success    *Milestones in Analog and Digital Computing* Herbert Bruderer,2021-01-04 This Third Edition is the first English language edition of the award winning Meilensteine der Rechentechnik illustrated in full color throughout in two volumes The Third Edition is devoted to both analog and digital computing devices as well as the world s most magnificent historical automatons and select scientific instruments employed in astronomy surveying time measurement etc It also features detailed instructions for analog and digital mechanical calculating machines and instruments and is the only such historical book with comprehensive technical glossaries of terms not found in print or in online dictionaries The book also includes a very extensive bibliography based on the literature of numerous countries around the world Meticulously researched the author conducted a worldwide survey of science technology and art museums with their main holdings of analog and digital calculating and computing machines and devices historical automatons and selected scientific instruments in order to describe a broad range of masterful technical achievements Also covering the history of mathematics and computer science this work documents the cultural heritage of technology as well    *FIA Foundations in Taxation FTX FA2015* BPP Learning Media,2016-03-01 Foundations in Accountancy FIA awards are entry level core skill focused qualifications from ACCA They provide flexible options for students and employers and as official ACCA Approved Learning Provider Content BPP Learning Media s study materials are tailored to the exams students will take
