*An Institutional Assessment of Antitrust Policy* Ignacio De León, 2009-01-01

Antitrust policy nominally plays an instrumental public interest role The generally accepted notion is that it is a government instrument designed to intervene in relatively unregulated markets in order to preserve rivalry among independent buyers and sellers Competition authorities are supposed to restrain business conduct that exercises monopoly power aimed at excluding competitors or exploiting consumers and clients Thus it can be said although few pro market theorists make the insight explicit that antitrust provisions reveal mistrust of the capacity of markets to promote social welfare The inner logic enforcement mechanisms and practical outcomes of antitrust provisions are all intrinsically contradictory to the natural dynamic course of market functioning In Dr De Leon s challenging thesis this mistrust of the market lies at the root of antitrust policy giving rise always to a preference towards predicting the result of impersonal market forces rather than interpreting the entrepreneurial behaviour which creates those forces And it is in Latin America that he finds the powerful evidence he needs to support his case From the formative years of Latin American economic institutions during the Spanish Empire economic regulations far from being driven by the pursuit of promoting free trade and economic freedom have been conceived enacted and implemented in the context of deeply anti market public policies trade mercantilism and government dirigisme The so called neoliberal revolution of the 1990s triggered by the Washington Consensus did not really change the interventionist innuendo of these policies but merely restated the social welfare goal to be achieved the pursuit of economic efficiency Dr De Leon presents his case against the assumption that consumer welfare orientated policies such as antitrust do really promote entrepreneurship and market goals Paradoxically antitrust enforcement has undermined the transparency of market institutions in the name of promoting market competition The author s provocative analysis marshals several sets of facts in support of his thesis including the actual functioning of antitrust policy as reflected in case law in various Latin American countries the preference of merger control over other less intrusive forms of market surveillance the constrained role of competition advocacy against government acts and the ineffective institutional structure created to apply the policy Among the many specific topics treated are the following government immunity strategic industries state owned enterprises politically influential groups measurement of market

concentration the burden of proof of social welfare benefits the role of joint trade associations and professional guilds institutional arrangements that favour collusion selective distribution sector regulation erosion of property rights marginal role of courts in the antitrust system leniency programs and privatized public utilities The growing significance of Latin America in the context of economic globalization endows this book with huge international interest Written by a leading authority on the topic this is the first book that presents a detailed description of Latin American antitrust law and policy as it has been developed through numerous judicial opinions A wide variety of audiences around the world will find it of extraordinary value competition law specialists scholars and students of the subject policymakers and politicians in Latin America as well as all interested lawyers jurists and economists      *Code Red Fallujah* Donnelly Wilkes M.D.,2021-03-30 On the night of April 4th 2004 1st Marine Expeditionary Forces launch a major assault on the city of Fallujah U S Navy Lieutenant Donnelly Wilkes s battalion leads the assault into Fallujah as he is positioned with Navy Corpsmen and Marines at the tactical highway intersection called The Cloverleaf Rarely have U S military physicians been so close to combat in a major conflict as they were in the chaotic embattled streets of Fallujah Code Red Fallujah will take you there Sharing the harrowing entries from his field diary Wilkes becomes the first ever Navy physician to recount the sights and sounds of one of the most violent events of the entire Iraq War In heart pounding detail he divulges his struggles to save wounded warriors amidst rockets landing close enough to knock him off his feet When Wilkes fresh out of medical school is suddenly thrust into this war zone his skills his faith and his ability to endure are all put to the test Code Red Fallujah is the firsthand narrative of Wilkes s role in the Battle of Fallujah scintillating combat trauma and the spiritual challenges that pierced his journey

Beeve, 2012 Dr Jerold Beeve hadn't uttered a serious prayer for more than 20 years But when an anniversary vacation to Fiji turned into a long term mission project that all changed A highly experienced ophthalmologist Dr Beeve was horrified by the lack of eye care in Fiji that allowed many even children to become unnecessarily blind He and his wife Dorothy immediately made plans set up a clinic on the island But how could they afford all the additional equipment and its transportation Could they rely on the IRS to approve their 501 c 3 request at the last minute And would the United States ambassador to Fiji ever answer his phone Just when Dr Beeve began to question his calling he decided to pray Within days everything fell into place with perfect precision That was only the beginning When the irreplaceable instrument needed for surgery broke when an emergency caused siblings Beni and Sally to require prompt attention in the States when Dorothy lay hours away from death th Dr. *Henry R. *Manifesting Michelangelo* Joseph Pierce Farrell, 2011-01-04 And then it happened a ray of illumination shot straight up and down to the left and the right forming a pair of axes My heart began to beat very fast yet I didn't blink I couldn't have taken my eyes off what I was seeing if I had wanted to At the dawn of the new millennium Joseph Pierce Farrell made a

startling discovery that holds the potential to transform the world Having abandoned his childhood dream of a career in healthcare he had settled for a passionless job in real estate lining his pockets while eroding his soul Then one day he fell into a humble job restoring antiques and furniture One evening while working in his basement studio he drifted into a meditative state and permitted his mind to soar with the unlimited imagination of a child In that moment he experienced a brilliant blinding flash that ignited within him a remarkable power Since that transformative moment he has restored the facial features of a severely disfigured young man virtually erased an inoperable brain tumor dramatically reversed the aging process of the faces of celebrities and mended broken bones simply with intention supported by a profound connection to a higher source After a decade of his pioneering work exploring consciousness and its relationship to health and healing Farrell was invited to present his findings internationally in academic settings catapulting him to the cutting edge of the integrative healthcare movement Endorsed by leading researchers and medical doctors Farrell s body of evidence has begun to construct a bridge to permit science and spirituality to heal their divide and advance the emerging integrative healthcare model In this unprecedented book Farrell chronicles his journey of discovery and poignant stories of human transformation He outlines an easy to follow five step process that readers can use to ignite their own capacity to manifest change in their lives and the world Heralding a message of unlimited possibility Manifesting Michelangelo makes a compelling argument supporting what science is beginning to embrace what the great artists have always known and what spiritual traditions have long promised that we possess a latent capacity to manifest on the level of the miraculous It is the first book that asks us to believe based not on faith alone but on eyewitness medical testimony scientific evidence and profound photos that we have the capacity to manifest the change in the world that our conscience decrees and our hearts desire
