This book emphasizes software project management at work. The author's unique approach concentrates on the concept that success on software projects has more to do with how people think individually and in groups than with programming. He summarizes past successful projects and why others failed. Visibility and communication are more important than SQL and C. The book discusses the technical and people aspects of software and how they relate to one another. The first part of the text discusses four themes: 1. people process product, 2. visibility, 3. configuration management, and 4. IEEE Standards. These themes stress thinking organization using what others have built and people. The second part describes the software management principles of process planning and risk management. Part three discusses software engineering principles, the technical aspects of software projects. The fourth part examines software practices giving practical meaning to the individual topics covered in the preceding chapters. The final part of this book continues these practical aspects by illustrating a sample project through seven distinctive documents.

**Kawasaki Superbikes** Stefan R. Oehl, 2024-03-20 A Golden Era. The story of how Kawasaki superbikes appeared on the stage and evolved over almost two decades is presented by Stefan R. Oehl in 8 volumes. The code name for the Z1 project, New York Steak, was already invented in 1971. Designed in accordance with the secret The three S Styling Concept: Slim, Sleek, and Sexy, it would be the beginning of a legendary superbike series. Initially, the major market for the Z1 was the USA, and so the first road tests with the latest prototype versions V bikes took place on US highways and raceways in early and mid 1972. To keep the project a secret, the engineers painted the motorcycles in Honda blue and installed Honda badges on the tank. Kawasaki presented its first four-cylinder, four-stroke superbike, the 900 Super Four Z1, to the public in 1972 on the bicycle and motorcycle exhibition IFMA in Cologne, Germany.
